- Cost Structure: 40% Development, 30% Marketing, 20% Operations, 10% Miscellaneous.

Investment Needs

- Seeking an investment of \$100,000.
- Funds to be allocated for product development, marketing, and scaling operations.

Use of Funds & Growth Strategy

- 60% Product Development: Enhance features and integrate with other platforms.
- 25% Marketing: Target global markets and expand user base.
- 10% Operations: Scale to handle increased user load and, 5% Miscellaneous: Contingency and other unforeseen expenses.

Future Plan

Open Source

We intend to roll out our entire application and initiate the product launch.

Initial Launch

Integration

Our strategy includes the development of an enterprise solution that empowers clients with the choice to deploy the models within their own infrastructure, enhancing data security.

Enterprise Solutions

We intend to implement our proprietary open-source models, showcasing the distinctiveness of our product compared to our competitors.

We intend to release our application on both iOS and Android platforms while also developing a solution for seamlessly integrating our product.
