LABLAB.AI
AUTONOMOUS AGENTS
HACKATHON

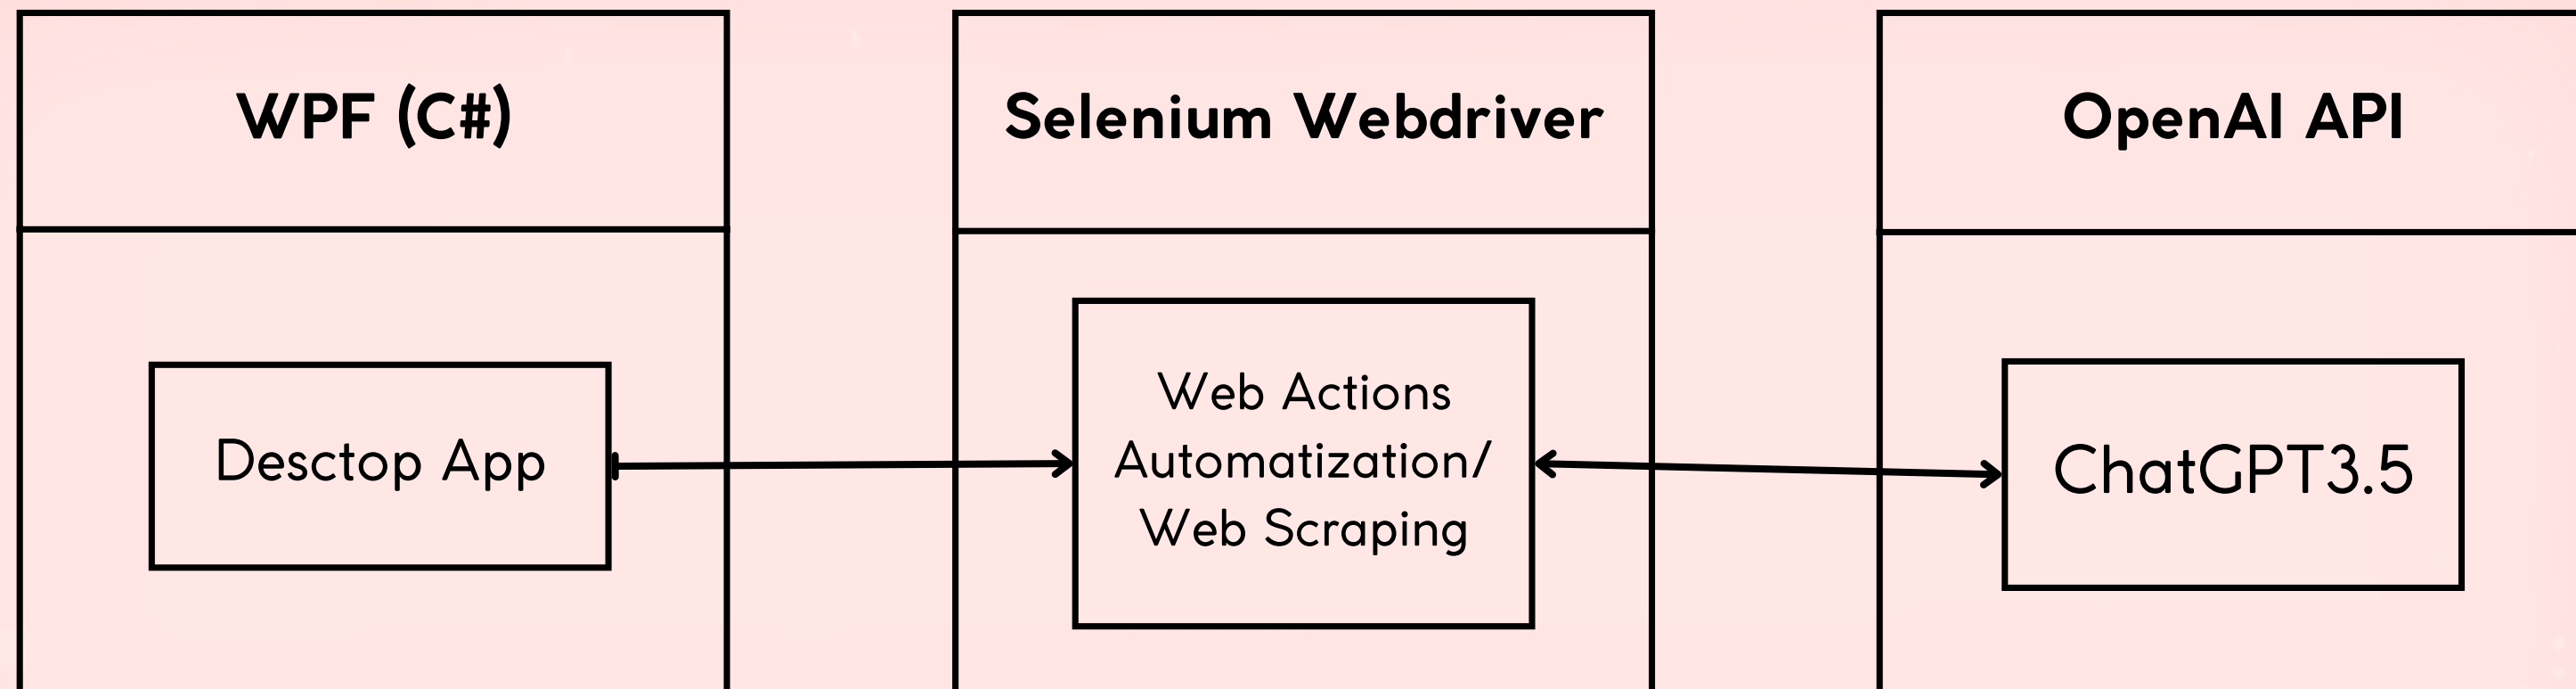

WHAT IS IT?

A DESKTOP APPLICATION THAT AUTOMATES THE SEARCH AND RESPONSE TO ORDERS ON THE FREELANCER.COM WEBSITE.

THE APPLICATION RETRIEVES FREELANCER DATA ON ITS OWN, SEARCHES FOR SUITABLE PROJECTS USING KEYWORDS, GENERATES A COVER LETTER, AND SENDS A RESPONSE.

HOW IT'S DONE?

WHAT ARE OUR PLANS FOR THE FUTURE?

- THE FUNCTION OF SENDING HR EMAILS TO LINKEDIN
- THE ABILITY TO USE THE SERVICE VIA TELEGRAM/WHATSAPP BOT
- WORKING WITH DIFFERENT FREELANCE PLATFORMS
