Listeners crave authentic, accurate content but don't always trust what they hear.

An AI-powered tool that ensures the authenticity of podcasts in real-time.

- Continuous Conversation Monitoring
- Real-time Fact Verification Using Autonomous Agents
- Instant Host Feedback
- Relevant Live Media Retrieval
- Clutter Free UI, information at a glance

did you know that the n ninety five mask is not effective against

Based on the information found, it is not accurate to claim that N95 masks are not effective against viruses or particles. N95 masks are designed to filter out at least 95% of particles in the air, including the virus that causes COVID-19. Studies have shown that N95 masks are more effective than surgical or cloth masks in preventing the transmission of viruses, including SARS-CoV-2. For example, a study published by the CDC found that wearing an N95/KN95 respirator was associated with a significantly reduced risk of COVID-19 infection (aOR = 0.17; 95% CI = 0.05−0.64) compared to not wearing a mask or respirator. Another study found that N95 masks can block 99.98% of virus in aerosols, providing a higher level of protection than medical masks or homemade masks. However, it is important to note that the effectiveness of N95 masks depends on proper fit and usage. A mask or respirator will be less effective if it fits poorly or if you wear it improperly or take it off frequently. Market Opportunity

- There Are Over 3 Million Podcasts.

- There Are More Than 460 Million Podcast Listeners.

- Potential partnerships with major podcasting platforms.

- Ability to make consumer version for debates as well as regular conversation

The Team

Thomas Csere (He/Him)
Full Stack Engineer / Maker

Empowered by AI, a programmer with no bounds.

Thomas blends full-stack expertise with years of AI and automation prowess, always pushing the envelope.

Roadmap - The Sky's The Limit

- Fact cards can become experts that can be chatted with
- Custom Data (Prepare a podcast on custom domain knowledge)
- Fine Tuned agents for better performance
- Version for regular conversation
- Integration into other platforms
- Gaze tracking for chatting with the system.

TrueCast

Join us in revolutionizing the podcast industry, ensuring authentic and verified content with TrueCast.
