Autonomous Agents Hackathon

Problem

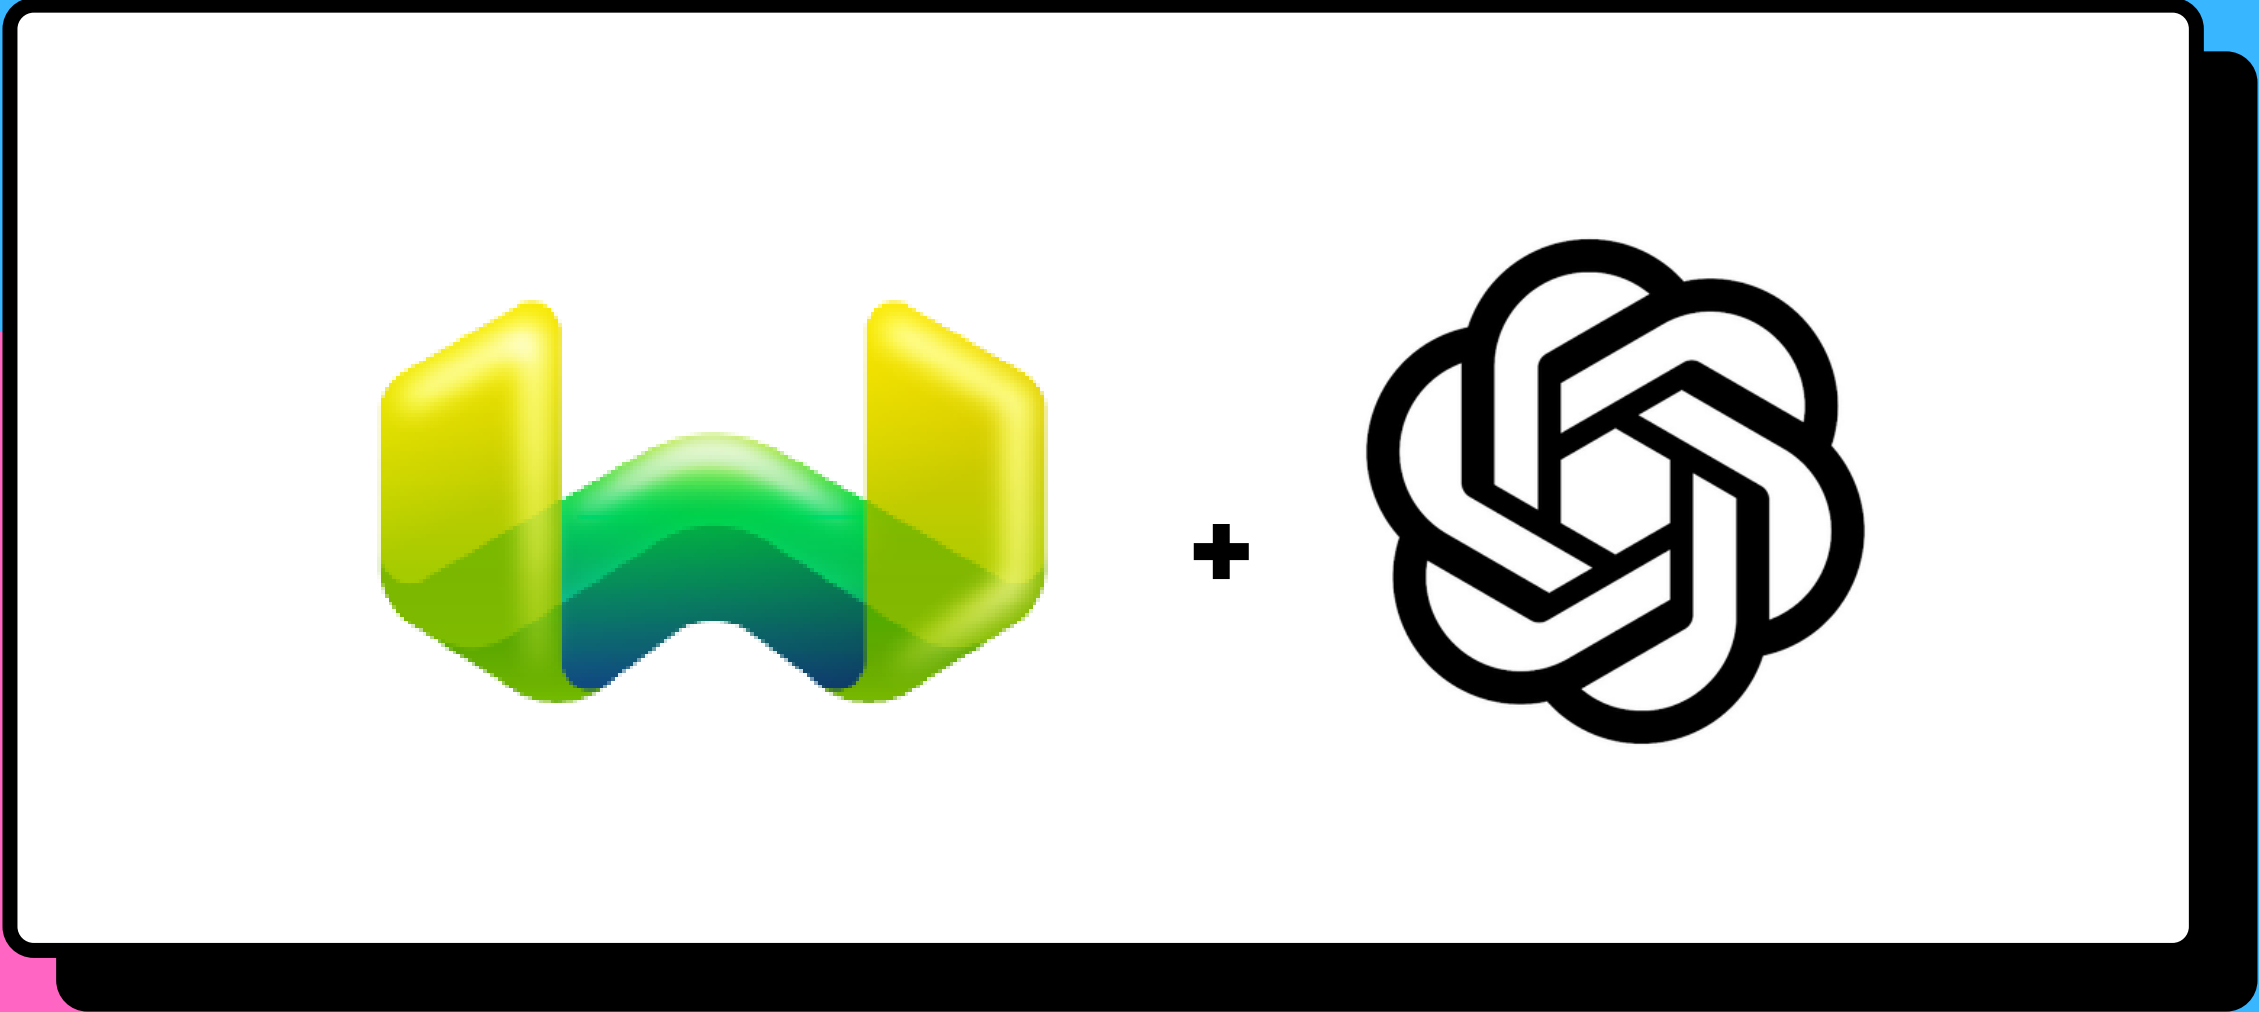

AI Based Image Generation

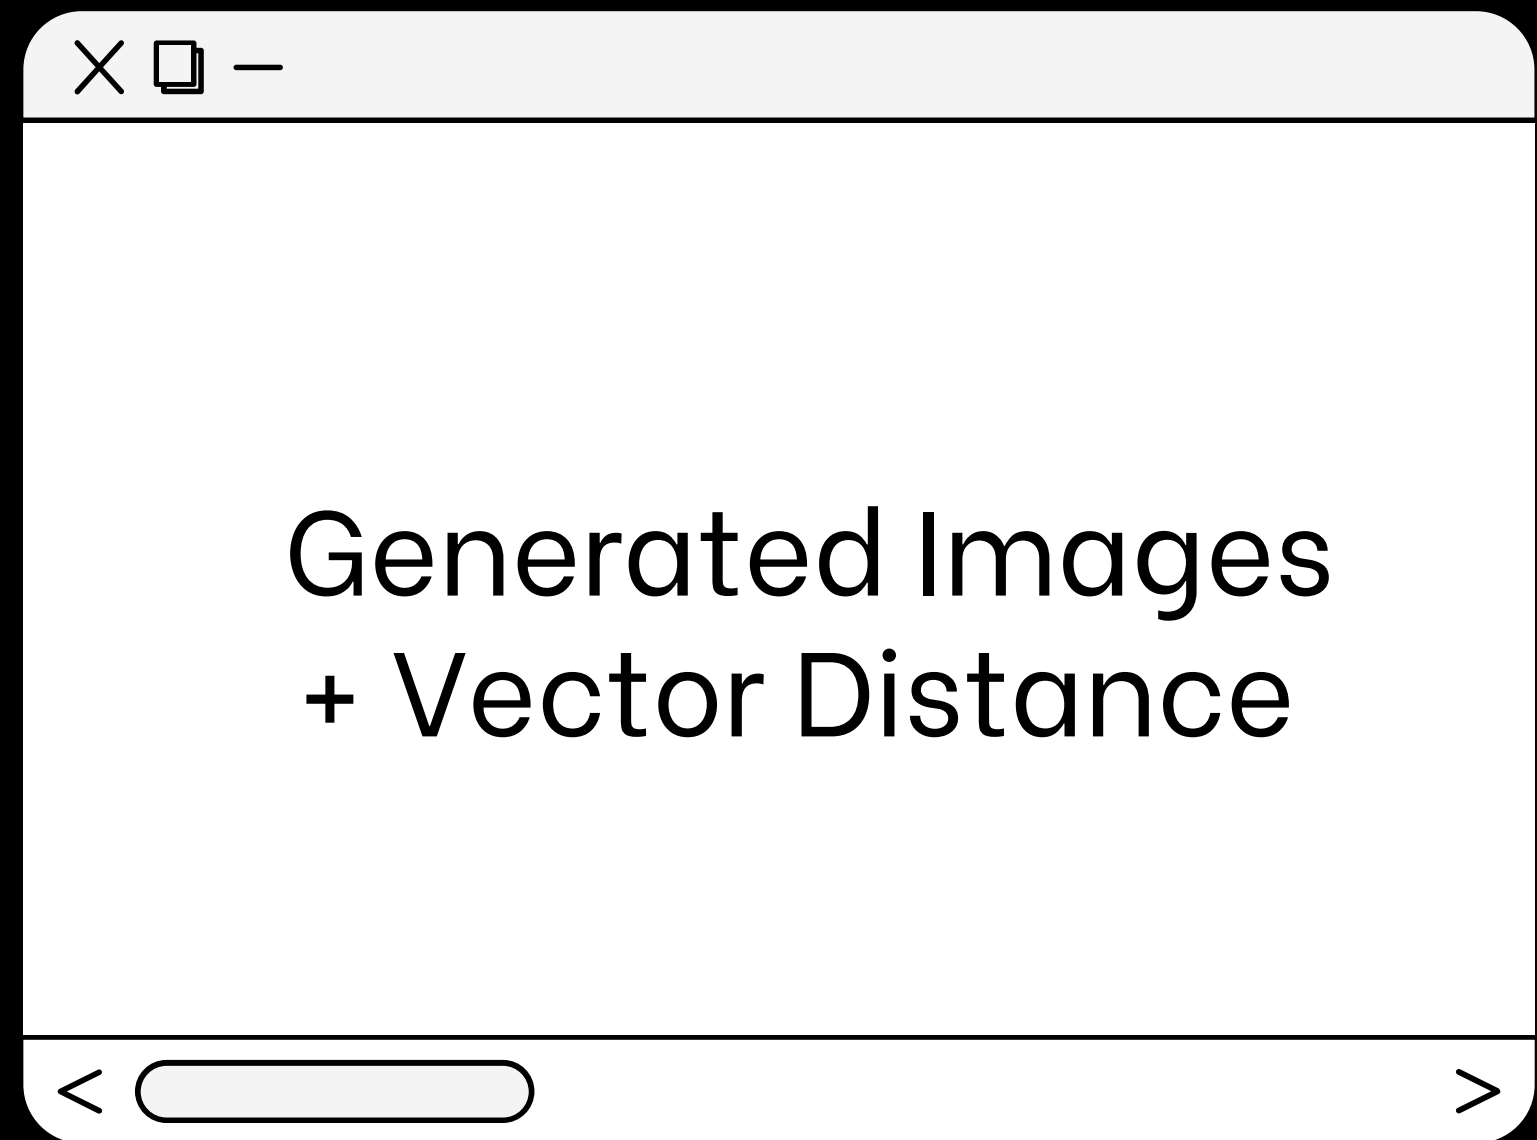

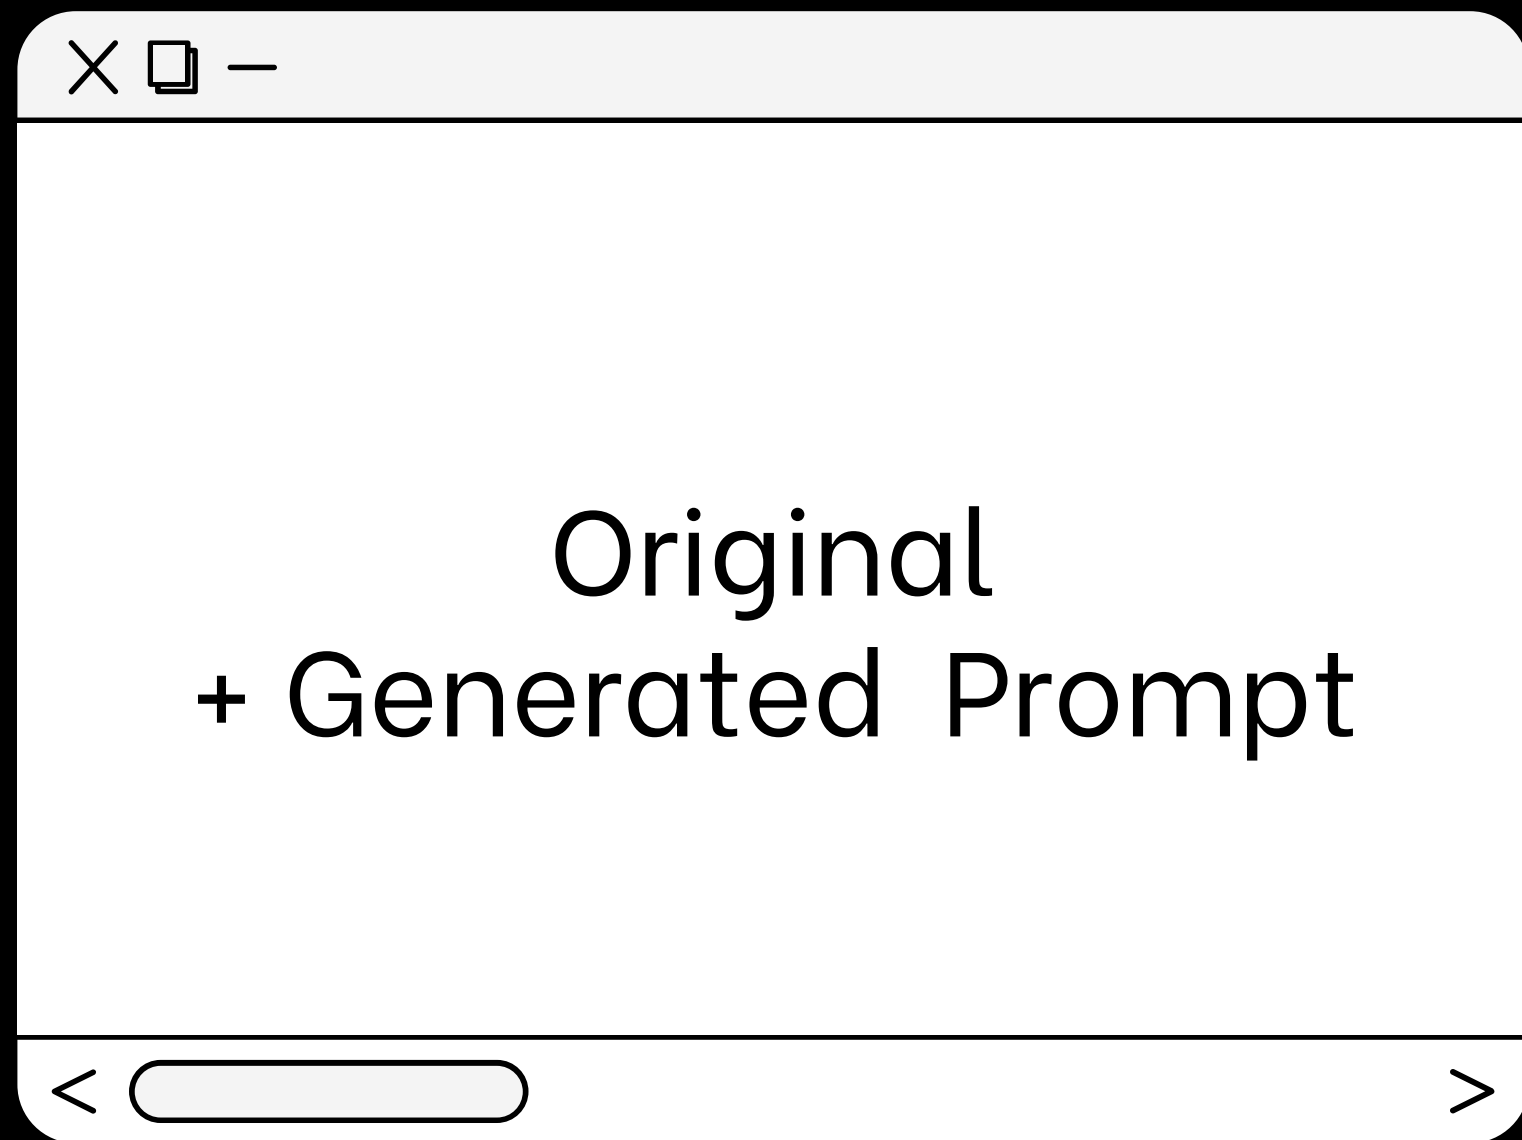

Solution

The image features a stylized whiteboard with a black border and a drop shadow, set against a vibrant pink background. The word "Solution" is written in a large, bold, black sans-serif font in the center of the whiteboard. To the left of the whiteboard is a large, light blue circle, and to the right is a jagged, starburst-like shape in a darker blue. Below the whiteboard is a horizontal light green bar with rounded ends and a small white circle in the center, resembling a slider or a progress indicator.
