Always Be Closing,
Literally

The Agora Spartans

Kye, Zack, Plinius,
Warren, and
Richard

We're the Agora Spartans, a powerhouse team of tech warriors dedicated to revolutionizing AI.

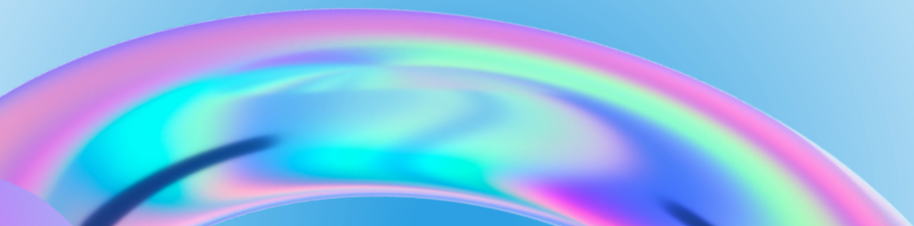

Selling Pains

- **Employing and training a sales team is expensive and time-consuming.**
- **Smaller teams struggle to efficiently leverage customer data and face challenges in scaling their sales operations.**

Sales: Evolved

ProfitPilot offers a 24/7 autonomous AI sales team that not only reduces operational costs but also ensures consistent, data-driven sales strategies.

ProfitPilot

Profit Pilot is an innovative software solution designed to enhance customer interactions through emails and drive sales through automated conversations.

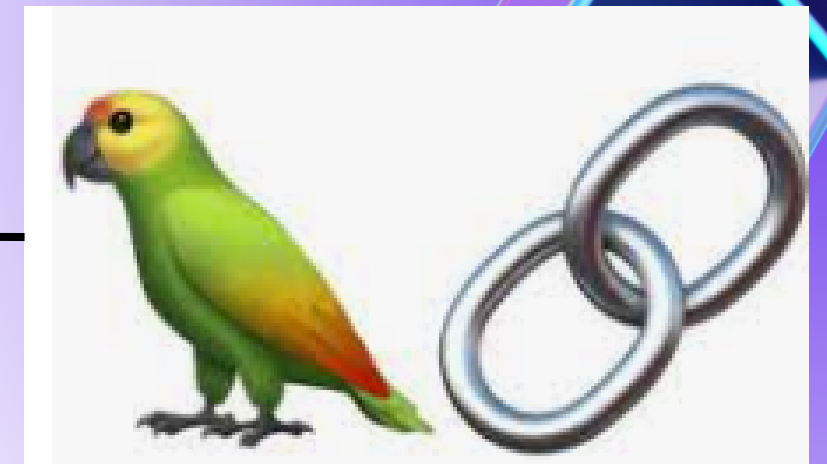

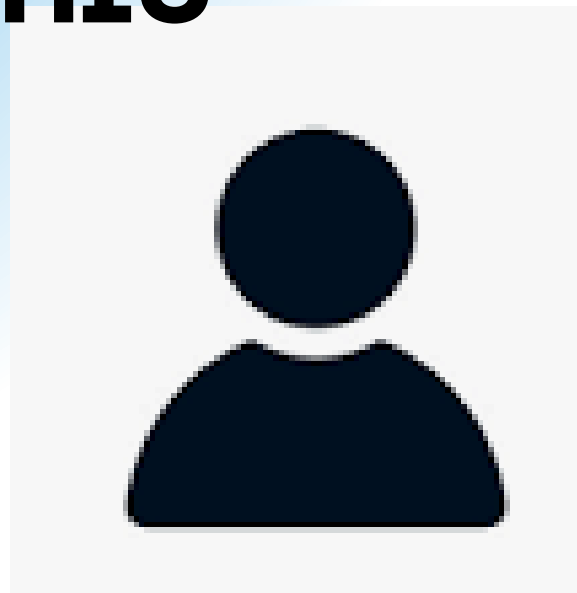

ProfitPilot

By replicating human-like interactions, the software creates a seamless and personalized experience for each customer.

Market Revenue Forecast
(2030)

SalesGPT

- **Them: Standard conversational AI without the depth of relationship building.**
- **Differentiator: We engage customers on a deeper level, enhancing the sales process.**

SalesForce Einstein

- **Them: Highly automated but often requires human oversight for complex scenarios.**
- **Differentiator: Our platform offers true autonomy, freeing up human resources for other tasks.**

Instantly.ai

- **Them: Less focus on autonomous agents and personalization.**
- **Differentiator: Our AI agents can operate independently, offering a highly personalized experience.**

Revenue Streams:

- Monthly subscriptions starting at \$19.99 for individuals, startups, and small businesses.
- Enterprise solutions with tiered pricing.
- Upsells for fine-tuning with custom datasets.

Next Steps

- Efficient data processing of customer lists for batched automated and concurrent cold email reach outs

- Reliability testing suite for handling long range conversations with customers
- Voice calling agents

- Massive scale deployment: 1000 nodes for 100,000 customers
- One instance of ProfitPilot handles 100 customers
