Problem Statement

- 01 In the workplace, conflicts and issues can occasionally arise.
- 02 These issues are not always promptly addressed with the HR department
- 03 Both employees and HR professionals may be concerned about the potential impact on the company's reputation and their own career.
- 04 These issues can encompass a range of topics, including but not limited to
 - a) matters such as sexual harassment
 - b) bullying by peers or superiors
 - c) disputes related to NDA
- 05 Studies show female employees are disproportionately affected by such issues.

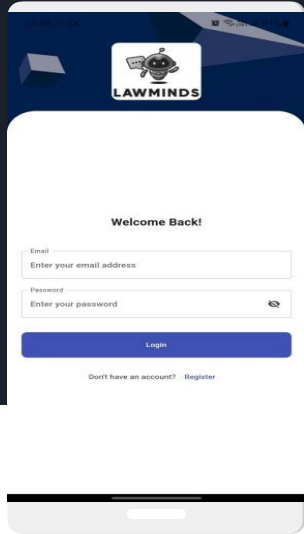

Solution

Our goal is to create a supportive chatbot that employees can turn to when facing everyday workplace stress, heavy workloads, team dynamics challenges, or instances of managerial feedback.

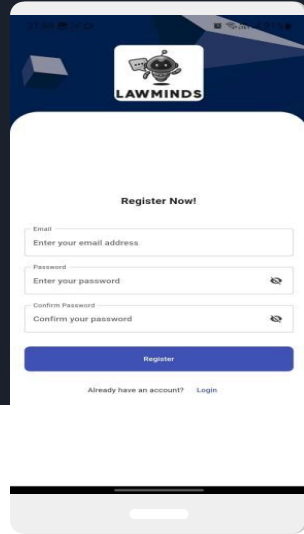

This chatbot will serve as:

- 01 A trusted ally
- 02 Assisting individuals in mapping out their plans and setting achievable goals
- 03 Resolving disputes within specified timeframes

Product

Our product is not just a chatbot; it's a valuable ally in helping employees build successful and satisfying careers while promoting a healthier workplace environment.

Our product offers:

Supportive Guidance

Goal Setting

Dispute Resolution

Confidentiality

Empowering Female Employees

User-Friendly Interface

Enhancing Culture Ethics

Product

Market Size

A **SCHEINMAN INSTITUTE ON CONFLICT RESOLUTION** research estimate Workplace conflict reportedly costs companies **\$359 billion** a year, indicating a significant financial burden that organizations are keen to address, potentially through technology solutions like the one we are developing

The Legal tech market was estimated to be **\$23.7 billion** with a 9.1% CAGR through 2030, with higher adoption to AI.

Although it is quite hard to estimate exact size of market as its quite a new alternative solution to a old problem, and judging by the current solution i.e arbitration procedure cost in high 10 figure. It will be an educated guess to say TAM is ample.

Market Size (ALT Slide)

- **Workplace Conflict Costs:**
 - US companies face a \$359 billion annual cost due to workplace conflicts.
- **Legal Tech Market Growth:**
 - Projected value \$23.7 billion, growing at a 9.1% CAGR through 2030.
- **Market Size Estimation:**
 - The exact market size is elusive due to the novelty of legal tech solutions in addressing traditional problems like workplace conflict.
- **Comparative Analysis:**
 - Legal tech could offer cost-effective solutions compared to high 10-12 -figure arbitration procedures.

Tech Used

1. GPT
2. ai21
3. llm
4. Flutter
5. Flask
6. langchain
