

LEGAL AI

Revolutionizing the Patent Process

legaltech-ai-hackathon/team-tonic

Get Started

Patentable Claim Extraction

Patentable Claim Extraction listens to inventors and builders, extracting and writing patentable claims in minutes, slashing time to market and costs.

The patent process requires rigorous validation to ensure claims are novel, non-obvious, and meet legal standards.

Problem Statement

Traditional patent claim writing is time-consuming and expensive.

Solution

Patentable Claim Extraction - a game-changing technology that automates the process.

Benefits

Rapid time-to-market and significant cost savings.

The Team

Our team of industry veterans combines deep domain knowledge with cutting-edge AI expertise. We are passionate about leveraging emerging technologies to drive meaningful change.

Patentable Claim Services

From startup founders discussing ideas to engineers brainstorming designs, Patentable Claim Extraction adapts to capture patent-worthy innovations.

Our intelligent system analyzes conversations, extracts key claims, and generates patentable claims in the required format.

Key Features and Benefits

LEGAL AI 

Utilizing advanced natural language processing to ensure accurate and high-quality patentable claims we securely safeguard your innovations by providing comprehensive intellectual property protection.

Automates the slow and complex process, reducing claim creation time from weeks to minutes.

Drastically reduces the need for external legal assistance, resulting in significant cost savings.

Implementation and Integration

We provide comprehensive training and dedicated support to ensure a smooth implementation process.

- Our solution seamlessly integrates with existing systems, leveraging APIs to streamline your workflow.
- Built on a scalable and secure cloud infrastructure, ensuring reliability and data protection.

 LEGAL AI

Our Project Roadmap

80% Enhance our models for more accurate and comprehensive patent claim generation.

We are committed to continuous enhancement, integrating AI-driven legal solutions, and partnering with top enterprise providers to ensure smooth integration with their platforms.

Built keeping inventors in mind. Whether you're a startup or a tech giant, our solution scales to meet your patent needs.

Empower your creations, and excel in the competitive market.

Experience a revolution in patent processing and watch your innovations soar.

Your Invention's Best Ally

Take your inventions to the next level with the power of AI. Patentable Claim Extraction streamlines the patent journey, making it faster, simpler, and more efficient.
