

TICKER ANALYST

Harnessing AI for In-depth SEC Filing Analysis

by: Alex Glebov & Nathan Grant

THE CHALLENGE WITH FINANCIAL DATA

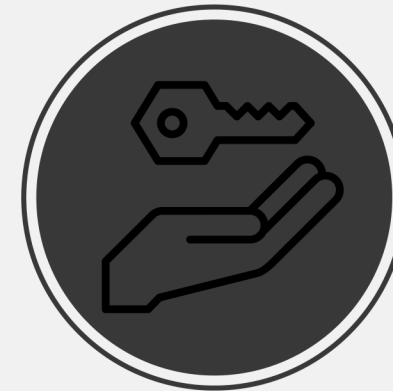

- Difficult to access and quickly interpret SEC filings over multiple quarters
- AI training data does not include most recent 10-Q data
- Time-consuming analysis process
- News articles are not detailed enough for researchers and are subject to bias

OUR SOLUTION

Select Ticker

- Simple input: Just enter a ticker symbol

Crawl

AI-powered SEC Edgar 10-Q filings dynamically crawls the ticker symbol

Chat

Interactive Q&A with the AI for deeper insights

TARGET AUDIENCE

- **Financial analysts and investment firms**
- **Individual investors**
- **Academic researchers in finance**

TAM/SAM

- Total Addressable Market (TAM): **Global financial market participants**
- Serviceable Addressable Market (SAM): **U.S. based investors and firms actively using SEC filings**
