Joshua David Brown mentioned that All around excellent. From the food to the service, our visit was very enjoyable. Small pizza had a great amount of toppings, and the fire cheese added to my favorite jalapeno and pineapple pizza, it was the missing ingredient. This was my first visit, definitely won't be the last. Chef's Kiss. 🍷

Joshua David Brown gave rating 5 out of 5 for Greenville Avenue Pizza Company.

Madam K stated that First time here. We were greeted when we walked in. You can seat your self. Sit any where. Cute little place ducked off. All the way from the appetizers to the pizza was very very good. They dont hold back on the toppings. Everything we ordered came out hot and fresh. They have this crack seasoning you can put on your fries or pizza. Its really good.They have TV's also. We were able to catch a few of college football games while there. There is a full bar. Our waitress was really nice and explained everything. We will be back.

Rewlazman said that Ordered meatball sliders and a small Canadian bacon, half pineapple, and half mushroom pizza. The sliders were good. The marinara sauce was chunky and savory with a hint of sweetness. Personally, I like a sweet sauce. The pizza was a thin crust, baked well. The pizza was very good, a bit on the savory side. Just know that if you like sauce on your pizza, ask for extra sauce or a side of sauce. I like sauce on mine, and I had a hard time tasting the sauce. My wife likes her pizza with less sauce, so it was perfect for her. I thought the pizza was good, but I prefer a much sweeter pizza. Just remember that taste is subjective, so you should give it a chance. The restaurant was clean and the staff was friendly. I would visit again.
