

Decluttr: Revolutionize Managing Your Personal items

Decluttr is an AI powered platform redefining the way you manage your belongings, prioritizing environmental sustainability and convenience.

● Problem

We all have items that we accumulate , some we want to keep track off, some we stopped using, cluttering our home that you want to sell

- You dont have full view of your inventory of personal items
- Reselling second-hand items is time consuming
- It takes skills to write ads and price each item correctly

● Solution

Decluttr is your AI assistant, helping you capture your inventory in no time and help you list your item for Re-sale

- **Describe your items to your inventory depends on usecase**
- **Identify items worth selling**
- **Helps with pricing**
- **Helps with product descriptions**
- **Publish ads for you on Gumtree, Craigslist, eBay ...**

Use Case

1. Smart Inventory Management:

Begin by capturing images of your belongings. Decluttr uses AI technology to create a detailed, organized inventory, making it simple to track and manage your possessions.

2. Eco-Friendly Reuse and Waste Reduction:

By having a clear view of what you own, Decluttr encourages reuse of items, significantly reducing the need for unnecessary purchases. This not only saves money but also plays a crucial role in minimizing waste and environmental impact.

3. Simplified Selling:

With Decluttr, selling your unused or unwanted items is a breeze. The app auto-generates appealing descriptions and sales pitches, and allows you to post these items across multiple online marketplaces. This seamless integration opens up opportunities for you to declutter your space while earning money.

4. Encouraging Responsible Consumption:

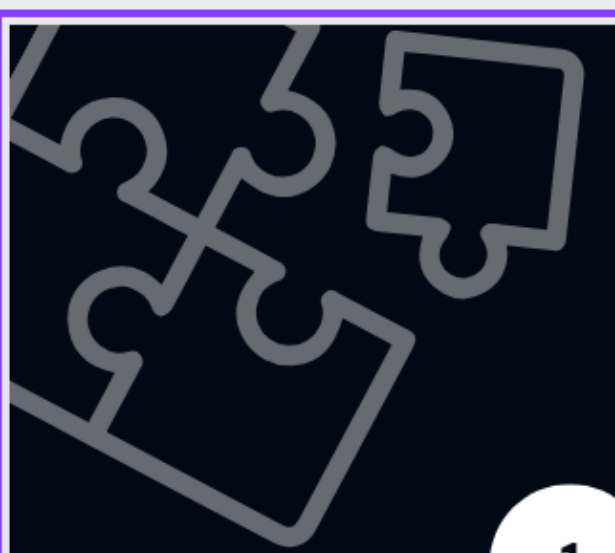

Before you buy something new, Decluttr prompts you to check your inventory. This feature is instrumental in preventing duplicate purchases and fostering responsible, sustainable shopping habits.

5. Virtual Garage Sale Feature:

For those who prefer community sales, Decluttr offers a unique feature to host virtual garage sales. This not only provides an opportunity for local community engagement but also offers a fun and efficient way to sell multiple items.

6. Valuable for Insurance Purposes:

In the event of property loss or damage, having an up-to-date inventory of your belongings is invaluable. Decluttr keeps this inventory easily accessible, streamlining the process of insurance claims.

● Hackthon ● Prototype

1

- Capture the photo of the item that you want to manage

2

Get the Description of the Item Automatically filled with the help of Gemini AI.

The Description prompt can be tailored for different use cases.

In the MVP, we have chosen to get the item description for Re-sale listing

3

The details are stored to create user personal inventory.

Posting of listing from the App (ebay , Amazon or etc) Inprogress)
