01 >>> Problem

- Lack of inspiration and creativity in story generation
- Creative Block
- Lack of Diversity in Content
- ... and sometimes kids need a little bedtime story :D.

02 >>> Solution

ImaGenStories: “I’m a Generator of Stories” offers an innovative solution to the lack of inspiration and creativity in story generation.

This app allows:

- Unleashing creativity using various images to express oneself.
- Controlling the literary genre and other parameters for the story.
- ... having fun and generating crazy stories.

Business Model

At present, ImaGenStories is a free app that anyone can use. However, as a revenue-generating method, it could include ads within the app or introduce a special subscription offering with additional features such as text-to-speech for stories and storage of created stories
