# NOOBIES.AI

NEXTGEN GPT AI HACKATHON

INTRODUCTION

noobies.ai is an open-source project designed to empower users in AI-driven content generation. It provides an extensive set of tools for creating diverse content, including blogs, images, videos, and audio. The project aims to simplify AI-based content creation while ensuring accessibility and user-friendliness.
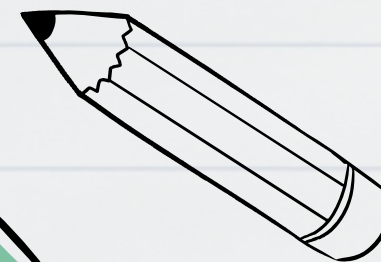

PROBLEM – SOLUTION

problem statement

Writing blogs and creating videos can be a tough and time-consuming task, especially for those who aren't experts in the field.

our solution

Noobies.ai is here to simplify the process. It allows users to effortlessly transform news articles into engaging blogs and turn ideas into videos without requiring advanced skills.

OUR TOOLS

TOPIC TO BLOG

URL TO BLOG
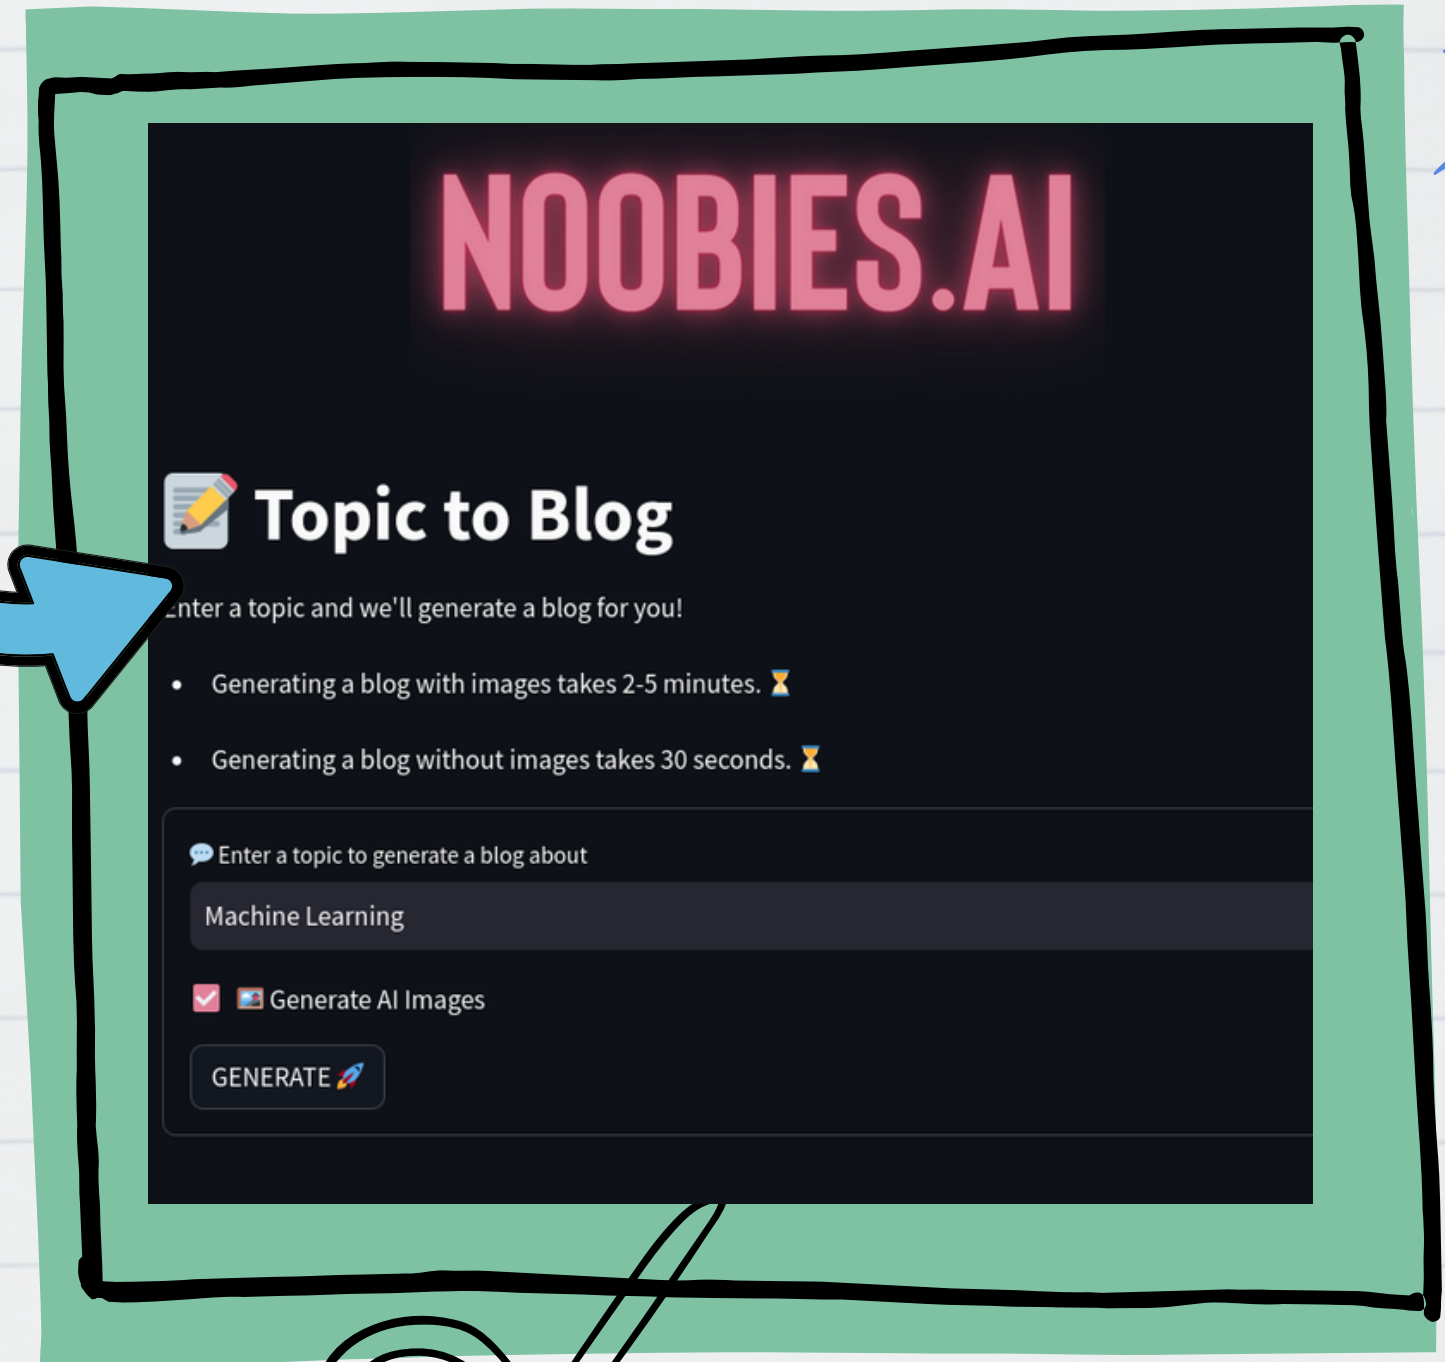

TOPIC TO VIDEO

VIDEO TO VIDEO

1) TOPIC TO BLOG

Description: Transform any topic into an SEO-friendly blog, generating essential parameters and six stunning images for a seamless content creation experience.

- **Input: User-specified topic**
- **Output: SEO-friendly blog in markdown format with images**
- **Generation Time: 2-3 minutes**

NOOBIES.AI

📝 Topic to Blog

Enter a topic and we'll generate a blog for you!

- Generating a blog with images takes 2-5 minutes. ⏳
- Generating a blog without images takes 30 seconds. ⏳

💬 Enter a topic to generate a blog about
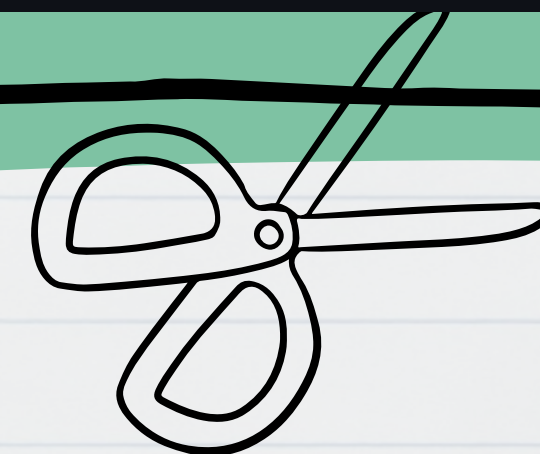

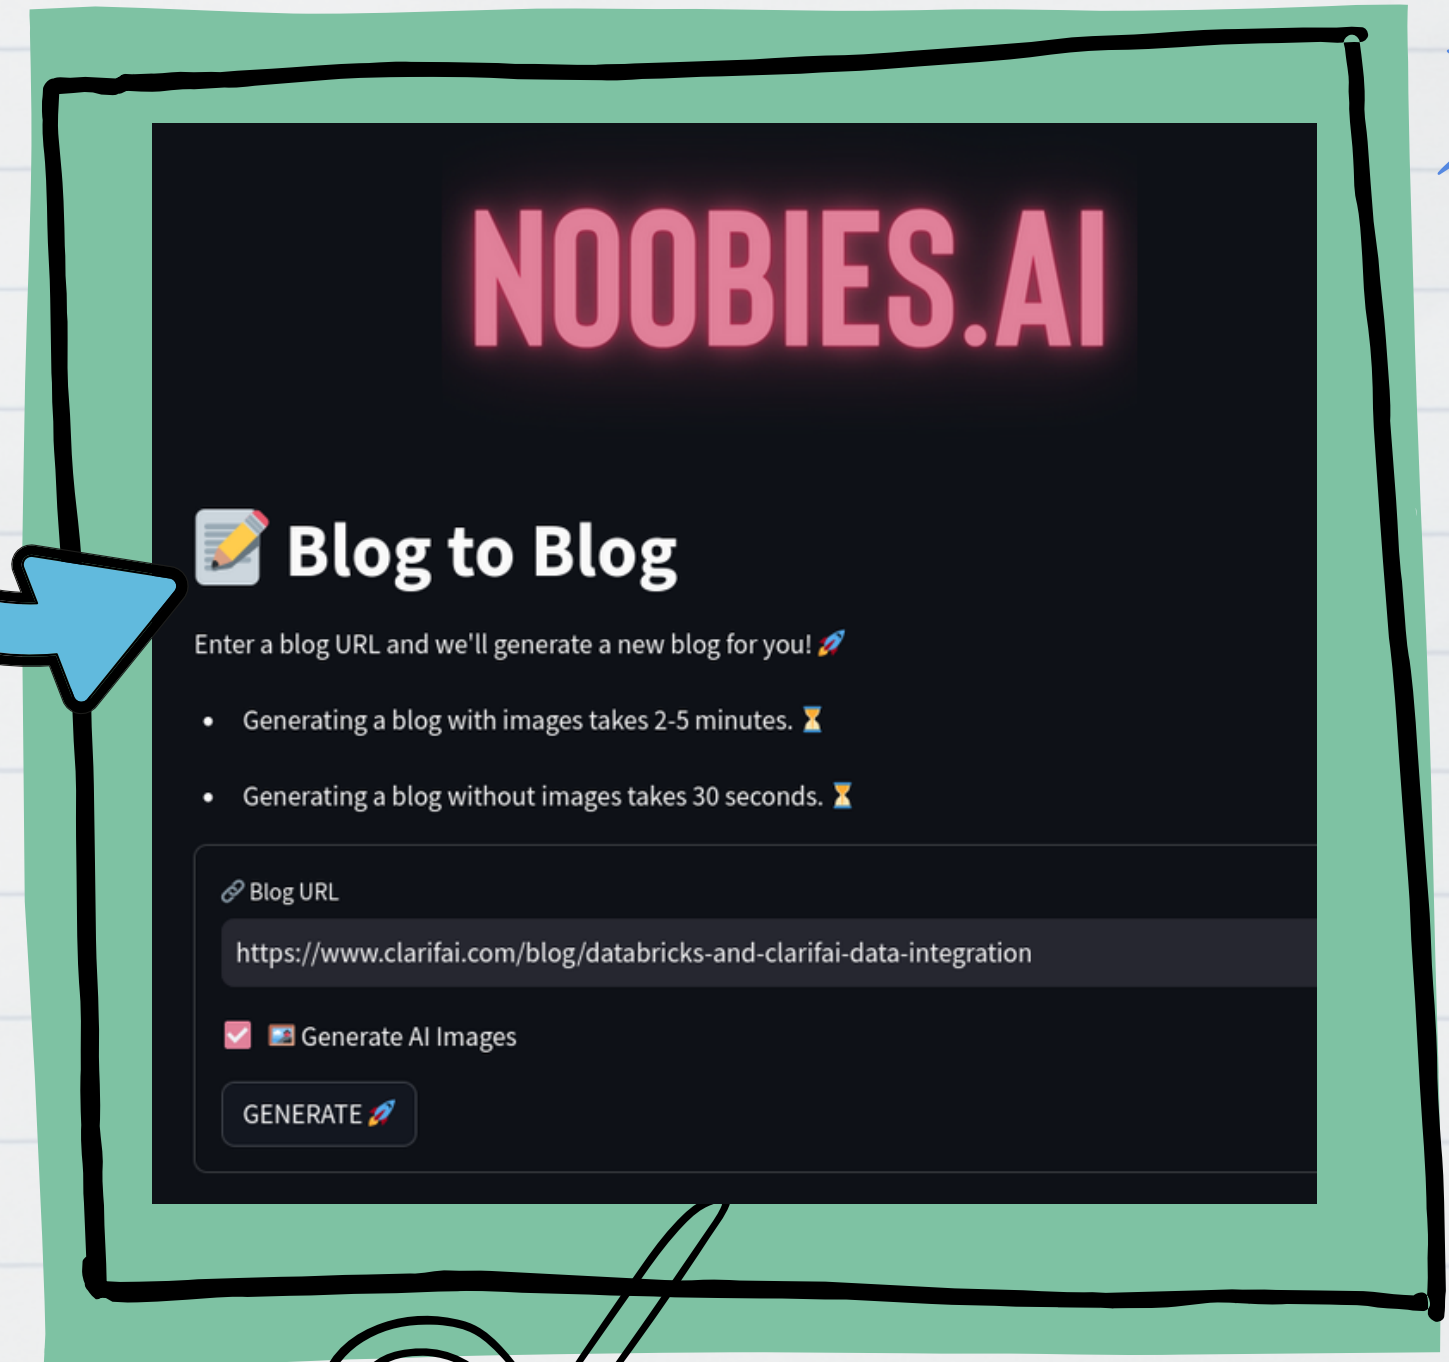

Machine Learning

☑ 🖼 Generate AI Images

GENERATE 🚀

2) BLOG TO BLOG

Description: Similar to Topic to Blog Generator, but accepts a URL instead of a topic, fetching all information to create a polished, SEO-friendly blog effortlessly. Technical Headings:

- Input: Website URL
- Output: SEO-friendly blog in markdown format
- Generation Time: 2-3 minutes(with images)
