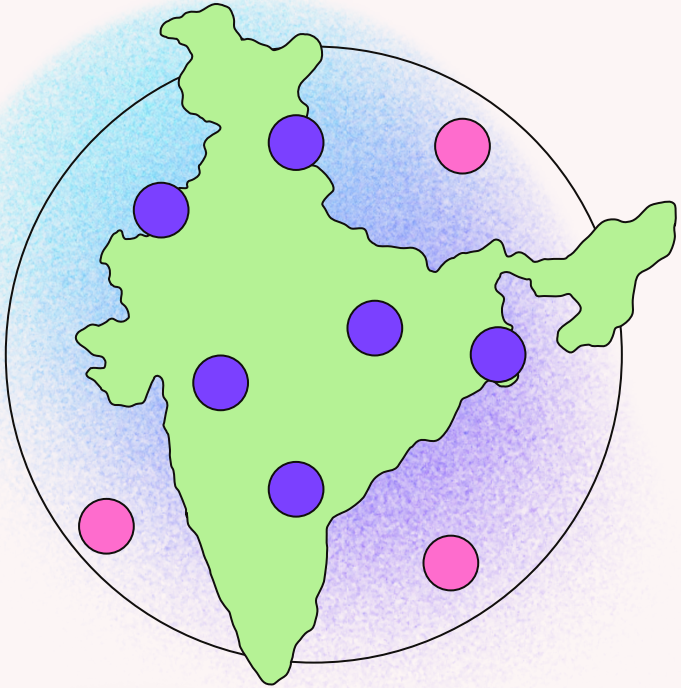
Globally



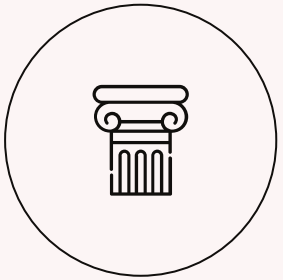
Problem

Language Barrier

Less than 0.1% identify English as first language, yet most paperwork is in English

Legal Literacy

Legal jargon is complex; can lead to legal and financial consequences



Access to Justice

Language is an obstacle to justice. Everyone deserves understanding rights

Existing Solutions $41B+ market

01

Human Translators

While accurate, they can be costly and not scalable for widespread needs

02

Generic Translation Software

Often lacks understanding of complex legal terminology and context, leading to errors.

03

Bilingual Legal Professionals

Limited in number, leading to bottlenecked services and delays

Offer of Internship at the company - Software Engineering Internship
Soham Patil,
We are pleased to extend to you the offer of an internship at the company in the role of LLM Engineering Intern. This letter outlines the terms of our offer and the expectations of this role.
Position and Responsibilities:
As a Software Engineering Intern, you will be actively involved in building Software (Large Language Model) systems and conducting experiments to test, improve, and validate these systems.
Your role will be supervised by John Smith, the company's Founding Software Engineer.
This opportunity will allow you to engage in significant hands-on experience in a cutting-edge field of machine learning.
Duration and Start Date:
This internship is scheduled to start on Monday, January 29th, 2024.
Translated using SahayakAI
