HAKEEM AI

your AI healthcare assistant
helping doctors to diagnose smartly

The Problem

- **Costly medical errors**
- **Diagnostic uncertainty for patients**
- **Unnecessary tests**
- **Increased workload - Cost**

The solution

HAKEEM AI

is revolutionizing healthcare decision-making by streamlining medical information for doctors.

With its advanced artificial intelligence capabilities **it offers**

- quick access to valuable second opinions,
- empowering healthcare professionals to make informed choices efficiently.

Important Facts :

- **AI can reduce misdiagnoses by up to 50% for certain conditions, like breast cancer** (Source: The Lancet Oncology, 2020)
- **Deep learning algorithms can achieve 94% accuracy in diagnosing pneumonia from chest X-rays,** (Source: Nature Medicine, 2018)
- **A study by Deloitte found that AI-powered tools can improve the efficiency of medical investigations by up to 30% and reduce healthcare costs by 15%.** (Source: Deloitte Insights, 2020)

TAM

Health - Saudi Arabia

Expenditure estimated at 77.1 billion U.S. dollars by 2027.

SAM

Hospitals -Saudi Arabia

- Annual growth rate (+12.38 percent).
- the indicator is estimated to reach 23.6b \$

SOM

10% of Saudi Market

- from 77 hospitals increased to 497 hospitals in 2021

Competitive Analysis

Competitors	HAKEEM AI
<p>1- Ada Health (Berlin, Germany): A well-established AI-powered health assessment app Patients enter symptoms, and Ada provides a list of possible conditions</p>	<p>Focused explicitly on assisting doctors, it offers similar AI-based diagnostic support, NHS Database</p>
<p>2- Babylon Health (London, UK): Provides AI-powered telehealth consultations encompassing remote doctor visits</p>	<p>Local Doctor , local market, according to rules and regulations</p>
<p>3-Infervision (Beijing, China): Specializes in developing AI solutions for medical imaging analysis (e.g., X-ray, CT scans)</p>	<p>While not directly overlapping with Hakeem AI's textual data focus, they demonstrate the use of AI for streamlining medical diagnostic</p>

Competitive Analysis

Competitors	HAKEEM AI
<p data-bbox="216 416 948 459">4- Qventus (Mountain View, USA):</p> <p data-bbox="226 525 736 563">A more specialized example.</p> <p data-bbox="216 614 1315 787">Their AI platform focuses on streamlining hospital operations and using data to predict patient needs and potential delays. This aligns with Hakeem AI's aim of improving efficiency, although from a different angle.</p>	

Revenue Model

Annual subscription + An additional percentage for each extra doctor

B2G

- Ministry of Health - Food Authority
- up to 100 000 Doctors
- Include :
- Model training for all Specialties
- Unlimited Number of Patients

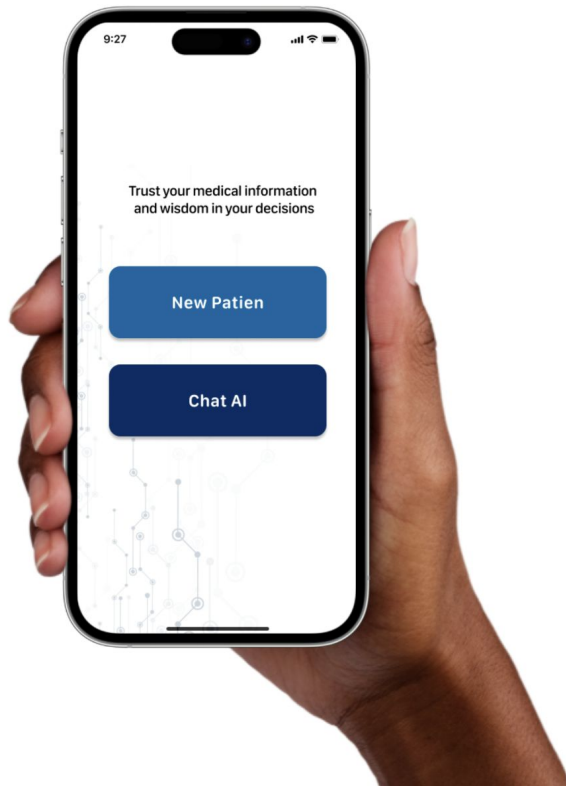

B2B

- Private Hospitals - Insurance companies
- Up 100 Doctors
- Include :
- Model Training on different Sectors : Dental, Neurology
- limited Number of Patients

small Clinics

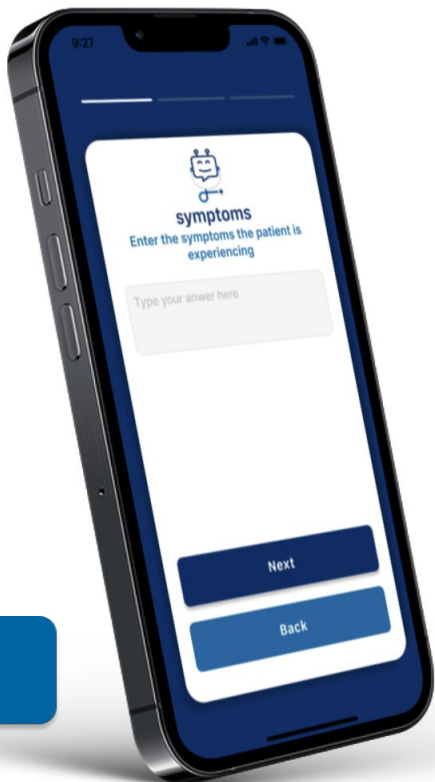

- up to 15 Doctors
- Include :
- Model Training on specific sectors ex:
- Dermatology clinic
- limited Number of Patients
