Taqyeemi App: Revolutionizing Education with AI

AICorp

Section 1: Feedback system

Introduction to Taqyeemi App

- **Innovative Platform**
  - Taqyeemi App is an innovative platform that revolutionizes the way students make reviews for college professors and rate their courses.

- **Student Reviews**
  - The app allows students to provide detailed reviews and ratings for their college professors, helping other students make informed decisions when choosing courses.

Features and Functionality

User-Friendly Interface

- The Taqyeemi App offers a user-friendly interface that is intuitive and easy to navigate. Users can quickly access the features they need without any hassle.

Course Search

- The app provides a comprehensive course search feature that allows users to find specific courses based on their interests and requirements. Users can search by course name, department, or professor.

Professor Profiles

- Users can access detailed professor profiles on the app. These profiles include information such as the professor's qualifications, teaching style, and areas of expertise. This helps users make informed decisions when selecting courses.

Review Submission

- The app allows users to submit reviews for professors. They can rate professors based on various criteria such as teaching effectiveness, responsiveness, and availability. These reviews help other users make informed decisions when selecting courses and professors.

AI Chat: Pinpointing the problem

|	
What is AI Chat?	AI Chat is a revolutionary feature that allows users to quickly chat with our app's database and get accurate information about any professor or course. With AI Chat, users can ask questions and receive instant responses, making it easier than ever to find the information they need.
How Does AI Chat Work?	AI Chat uses advanced machine learning algorithms to analyze user queries and provide accurate responses. Our app's database is constantly updated to ensure that users have access to the most up-to-date information possible.
Why is AI Chat Important?	AI Chat is the most important feature of our app because it allows users to quickly and easily find the information they need. With AI Chat, users can save time and effort by getting accurate information in real-time, without having to sift through endless pages of search results or wait for a response from a human customer service representative.

Taqyeemi App and the 17 UN Goals

Goal 4: Quality Education
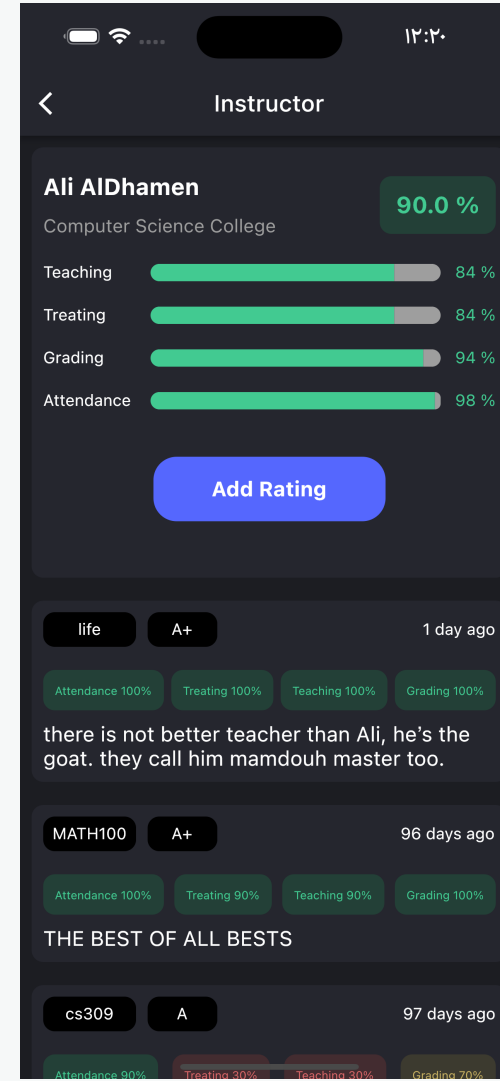

Goal 17: Partnerships for the Goals

Student Ratings and Reviews

Provide Feedback on Professors

- Taqyeemi App allows students to rate and review their professors, providing valuable feedback on their teaching style, communication skills, and overall effectiveness.

Rate and Review Courses

- Students can also rate and review courses, sharing their experiences and insights to help other students make informed decisions when selecting their classes.

Benefits for Students

- The Taqyeemi App provides numerous benefits for students, offering valuable insights into professors' teaching styles, course difficulty, and overall satisfaction. By utilizing this app, students can make more informed decisions about their course selections and enhance their academic experience.

Insights into Teaching Styles	Course Difficulty	Overall Satisfaction
The Taqyeemi App allows students to gain insights into professors' teaching styles, helping them understand the different approaches and methodologies used in the classroom.	Students can access information about the difficulty level of courses, enabling them to prepare and plan their schedules accordingly.	By reading reviews and ratings from other students, users can gauge the overall satisfaction level of a course and make informed decisions.

Benefits for Professors

| **Valuable Feedback**	• Professors can receive valuable feedback from students, allowing them to understand their strengths and areas for improvement.
Improved Teaching Methods	• By analyzing feedback and reviews, professors can identify areas where they can improve their teaching methods and deliver a better learning experience.
Increased Student Engagement	• Taqyeemi App helps professors increase student engagement by providing a platform for students to express their opinions and participate in the feedback process.
Enhanced Professional Development	• By continuously receiving feedback and improving their teaching methods, professors can enhance their professional development and stay updated with the latest trends in education.

Section 2: Ai Assisted Learning

AI Generated Quizzes

The app can also generate quizzes based on user input
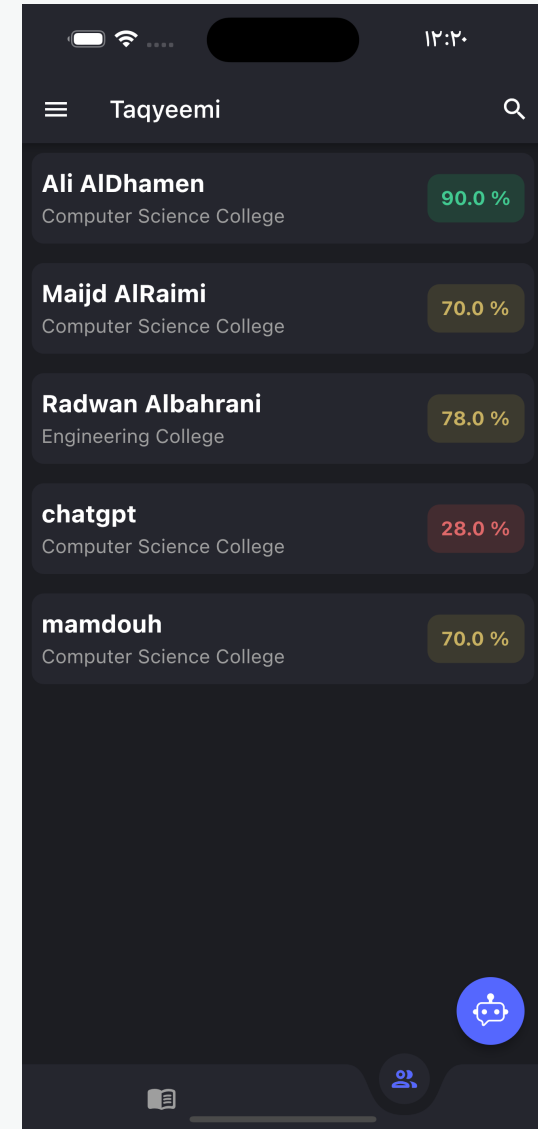

Future Development

AI generated study guides

Gamification System

Conclusion

Rate and review	Rate and review professors based on their teaching style, knowledge, and accessibility.
View	View detailed profiles of professors, including their areas of expertise and teaching philosophy.
Access	Access real-time feedback from other students to get a comprehensive understanding of a professor's strengths and weaknesses.
Filter and search	Filter and search for professors based on criteria such as course ratings, department, and availability.
