Revolutionizing Pharmacy: Empowering Patients and Streamlining Healthcare with AI-Powered Chatbot and Predictive Analysis

AI in Pharma

predictive analysis can reduce medication shortage

upto 60 %

AI-powered chatbots in pharmacies found that 90% reported improved medication adherence

Problem

Inefficient inventory management.
Wastage of medication.
Suboptimal patient care.
Unoptimisated workflows

PHARMCARE

Solution

An advanced AI management platform. Our solution revolutionizes pharmacy operations, addressing key pain points such as inefficient inventory management, medication wastage, suboptimal patient care, and unoptimized workflows.

Efficient Inventory Management

Minimizing Medication Wastage

Optimized Resource Allocation

Streamlined Workflows

PharmCare How it works ?

User signs up

enters pharmacy deatils

details are stored in MySQL database and vector database

User scan add bank details for POS

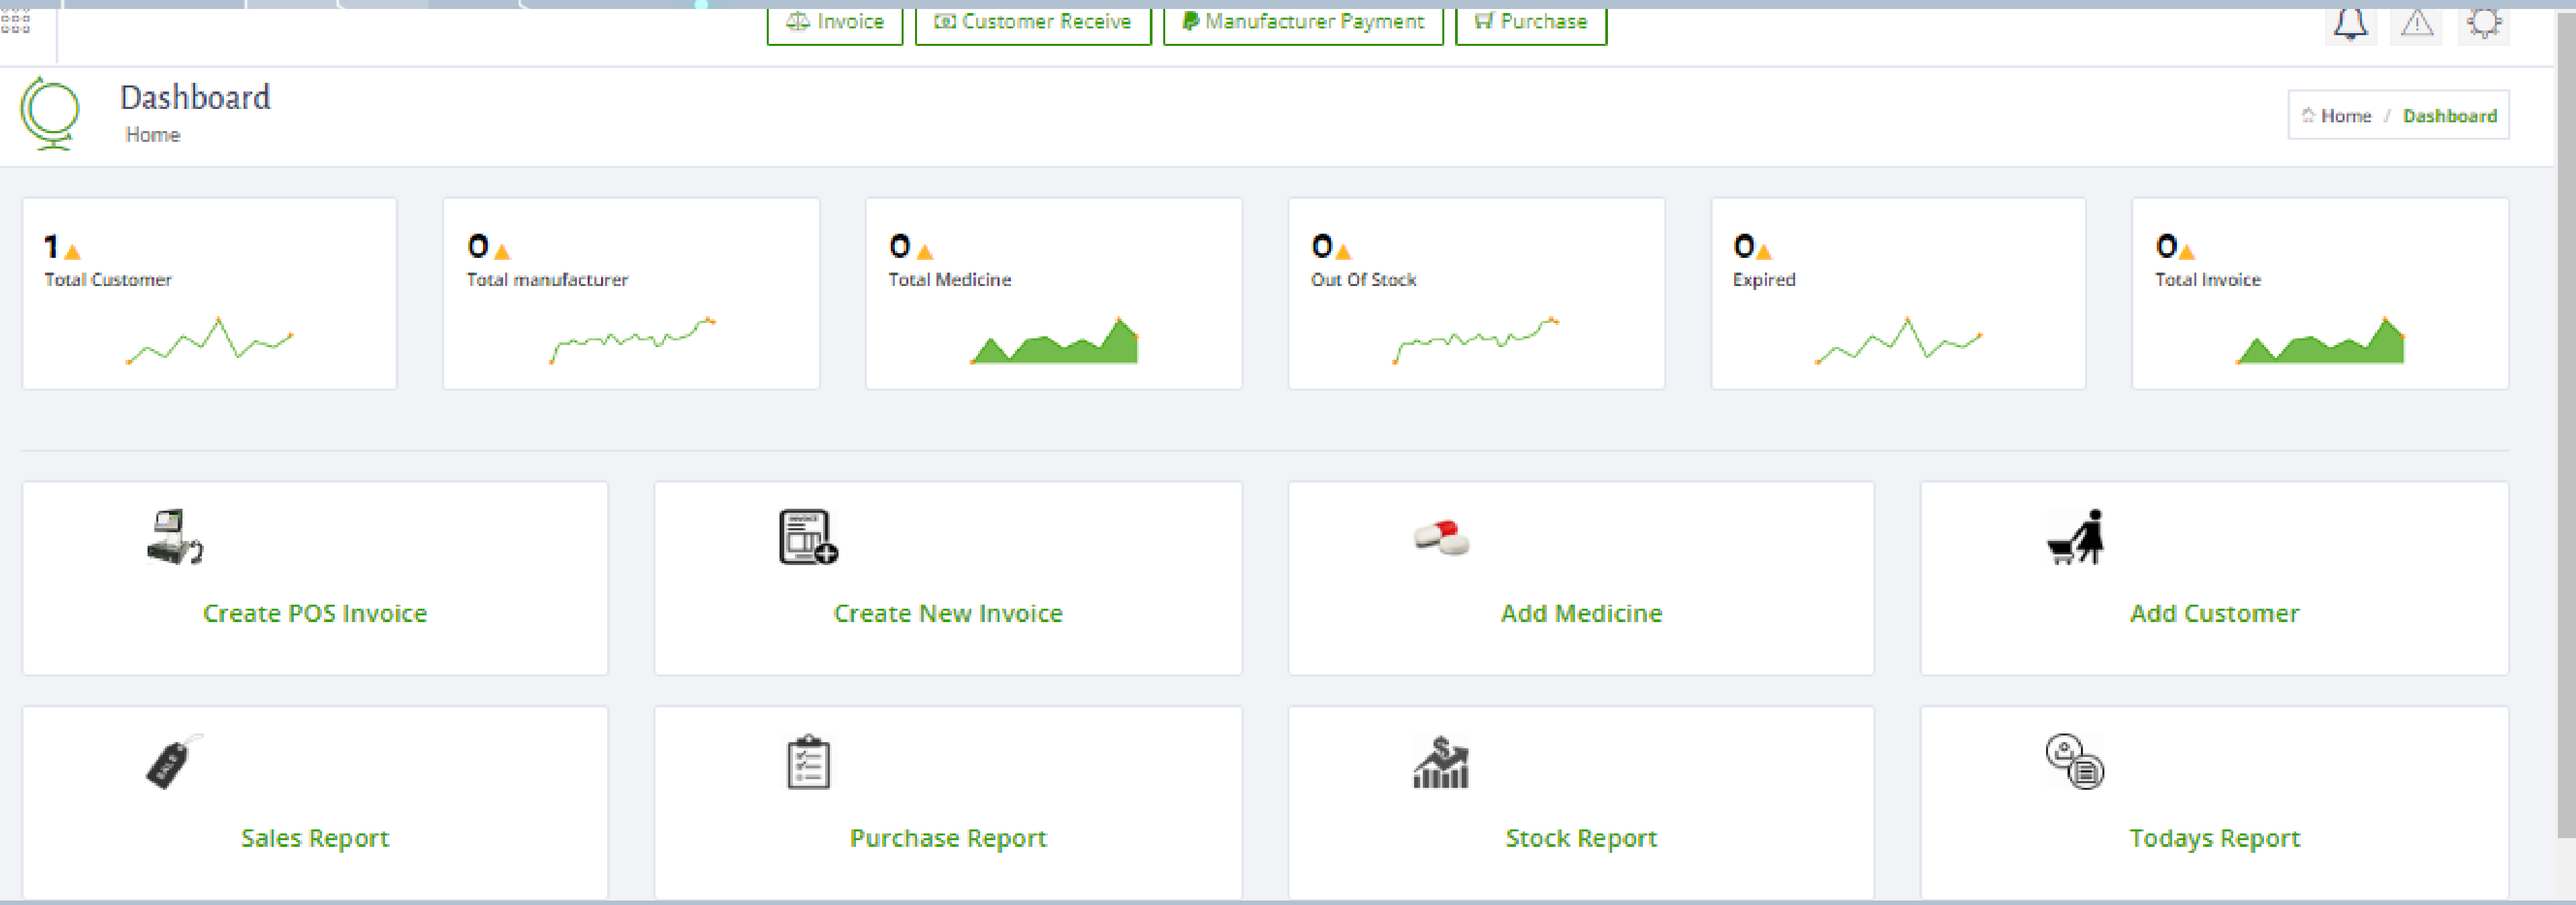
user can chat with chat bot that analyse data about the pahramcy

ai analysis on data and reporting on pharmacy performance

future is bright

How it looks?

PHARMCARE



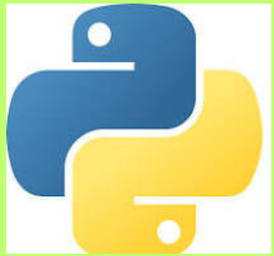
PharmCare How we made it

backend: PHP and python

frontend: html, javascript, ajax

database : SQL and weaviate

Ai technologies: openai, langchain



Market Target

1. Independent Pharmacies
2. Hospital Pharmacies
3. Retail Pharmacy Chains
4. Telepharmacy Services
5. Pharmacy Management Software Resellers

Business Model

Pharmacies will pay a monthly upto $50 to access our platform, which provides advanced medication management, patient engagement, and analytics tools.

Additional revenue streams will be explored through partnerships with pharmaceutical manufacturers for targeted advertising and data insights.

We will refine our business model based on market research, customer feedback, and industry trends.

Market Size

The global pharmacy market is valued at $1.25 trillion and is expected to reach $1.56 trillion by 2028.

TAM = 400,000 pharmacies * $50/month * 12 months = $240,000,000 per year.

SOM = 10% * $240,000,000 = $24,000,000 per year.

SAM = 20% * $24,000,000 = $4,800,000 per year.

Go to Market

Forging strategic partnerships with industry leaders.

Implementing focused marketing strategies for different pharmacy segments.

Providing pilot programs to demonstrate benefits and attract market interest.

Future plans

PHARMCARE

Customizing the AI-powered solution

Chatbot and predictive analysis for monitoring patients remotely.
