PROBLEM

In the competitive hiring landscape, routine inquiries bog down recruiting teams.

Resources scattered
across tools

Overloaded with
diverse tasks

Slow, varied replies
frustrate candidates

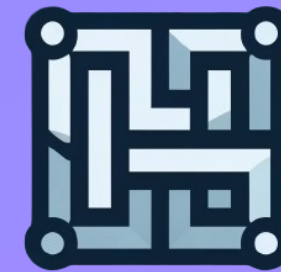

Hi, I'm HireChat!

I can help answer your questions about our hiring processes, job requirements, and more.
You can ask me anything related to recruiting or select an option below to get started!

Question

Send

🌟 Simply ask us any questions about the process to get started!

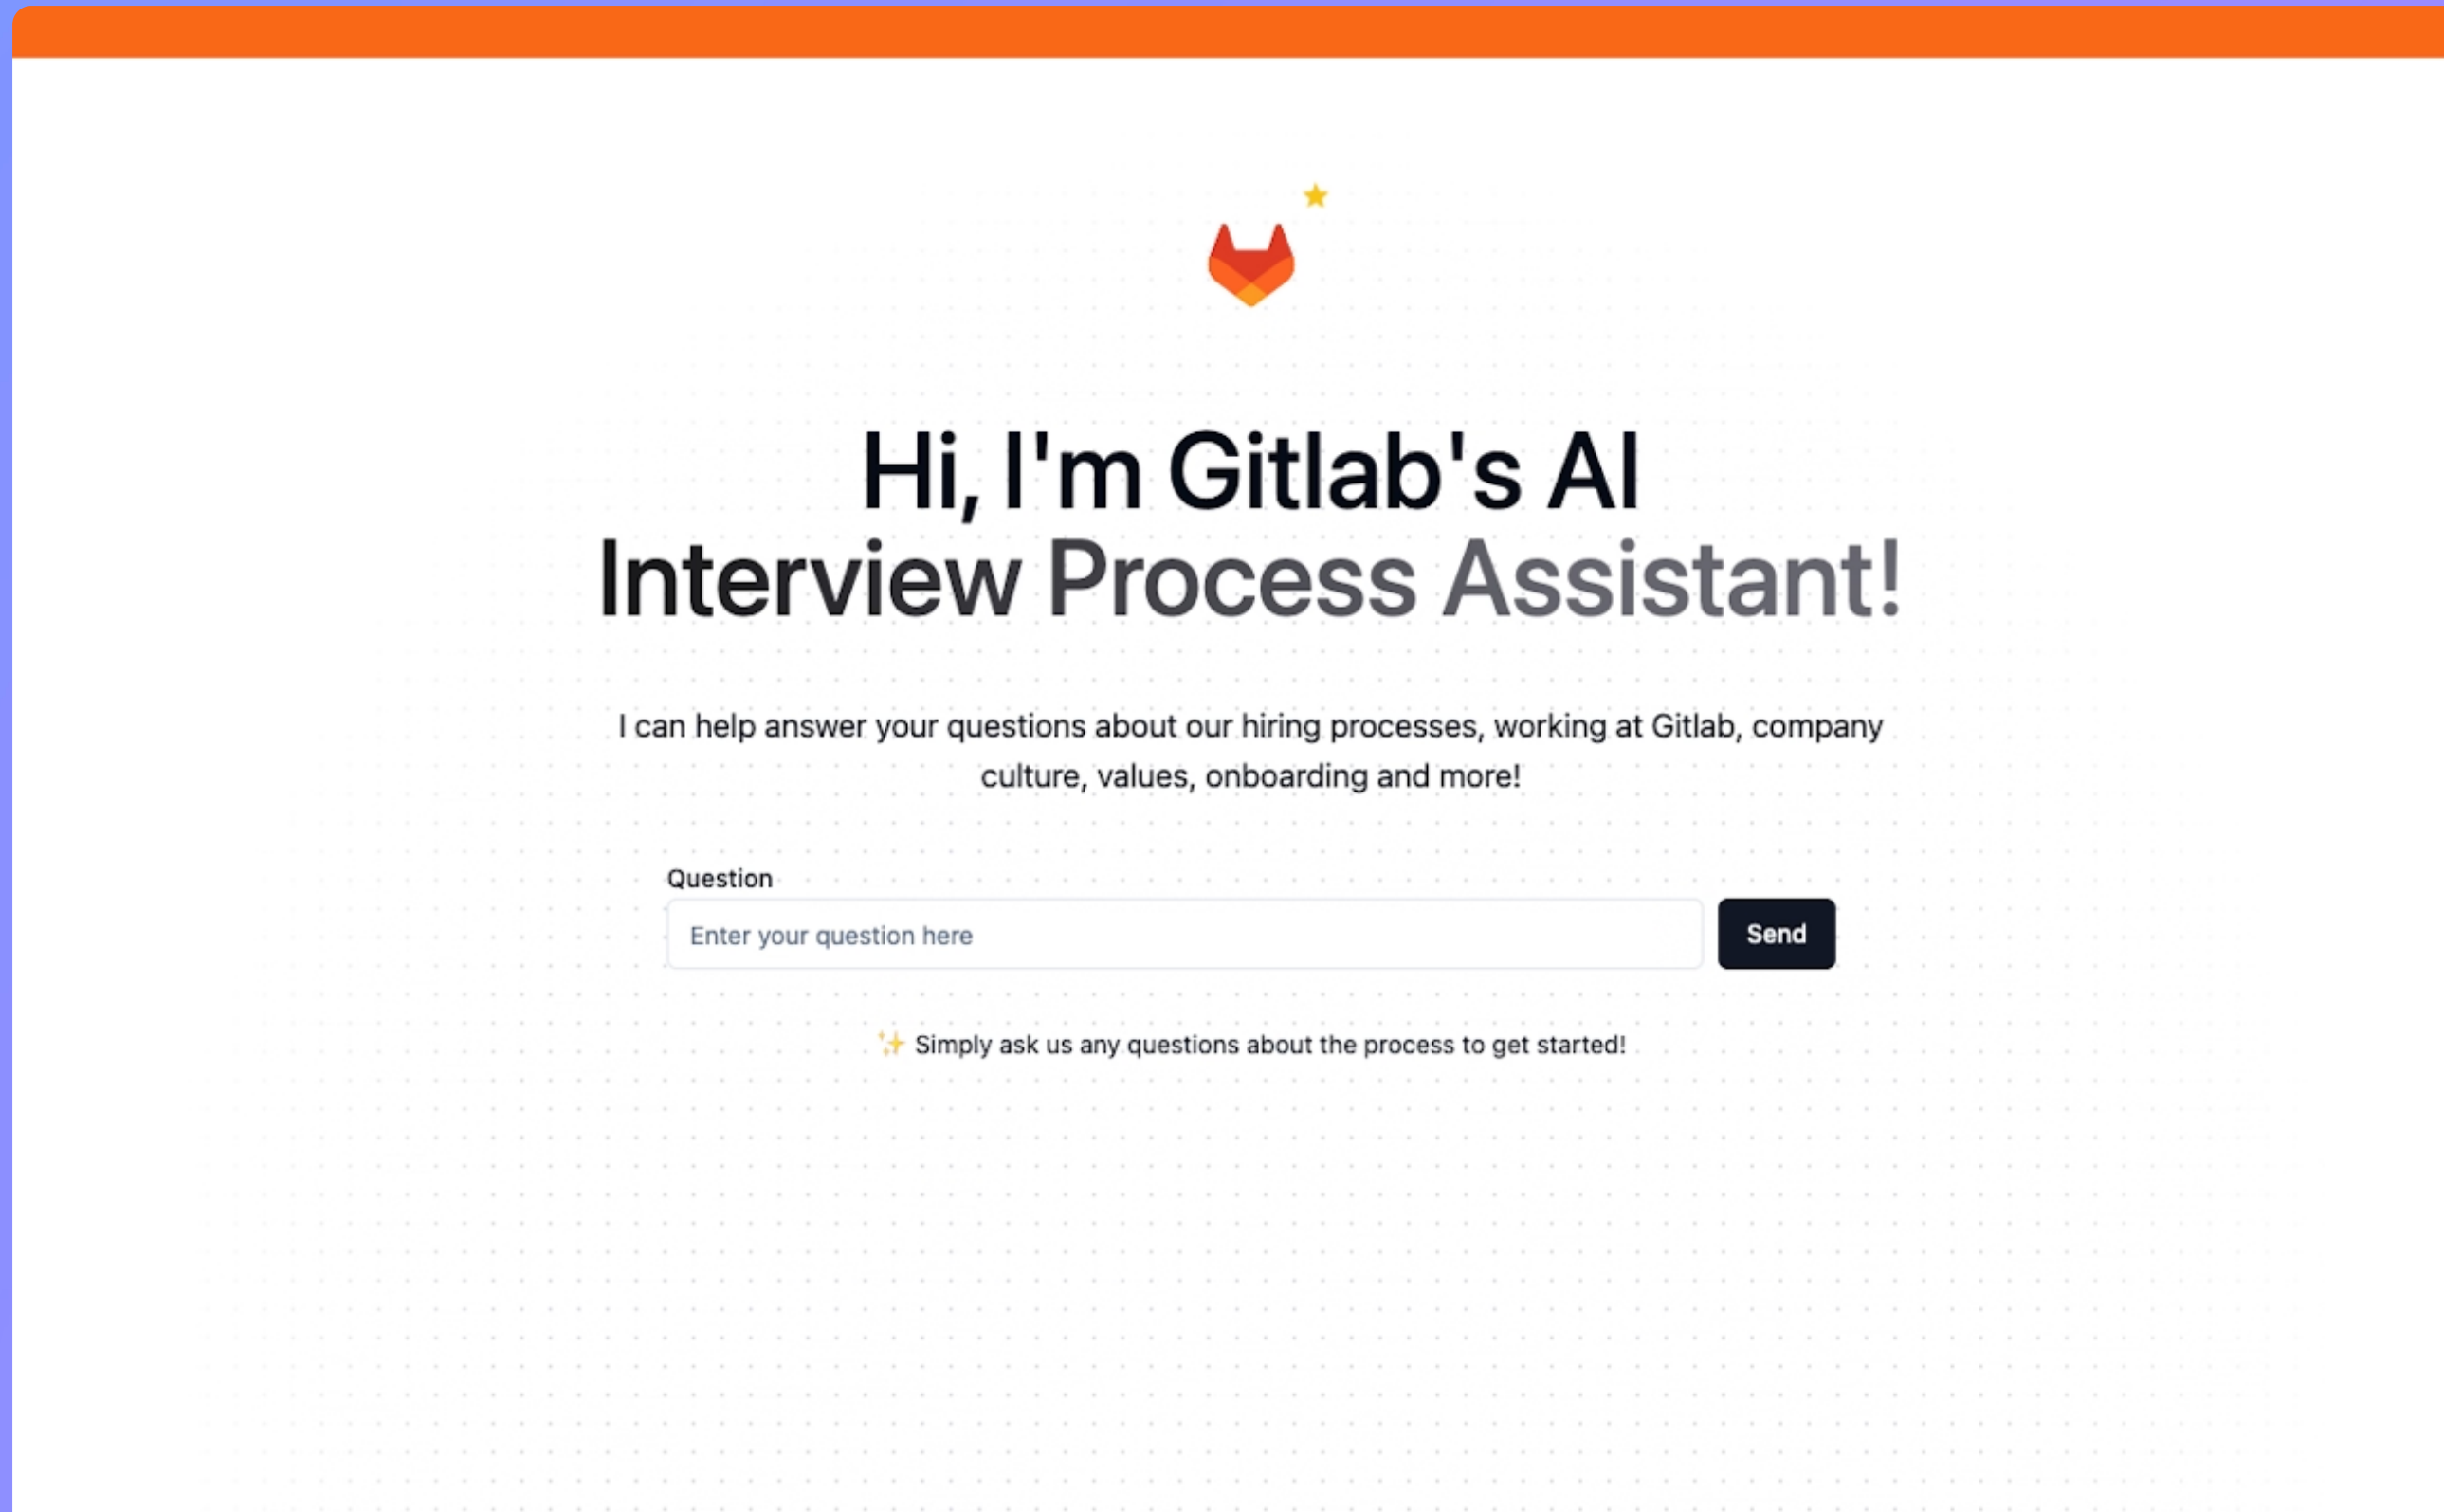

HireChat

Make better hiring decisions.

Personalized AI bot for each company.
Save hiring team's time spent on inquiries.
Rapid, precise answers boost candidate engagement.

PRODUCT

Enhance your recruitment process with our AI-powered assistant designed to automate FAQ responses branded for your company.

The screenshot shows a white chat interface with a dotted background. At the top center is the Gitlab logo (a red and orange fox head) with a small yellow star above it. Below the logo is the heading "Hi, I'm Gitlab's AI Interview Process Assistant!" in a large, bold, black font. Underneath the heading is a short introductory message: "I can help answer your questions about our hiring processes, working at Gitlab, company culture, values, onboarding and more!". Below this message is a form with a text input field containing the placeholder "Enter your question here" and a dark grey "Send" button to its right. The word "Question" is written in small grey text above the input field. At the bottom of the form area, there is a small yellow star icon followed by the text "Simply ask us any questions about the process to get started!".

Use Case:
Gitlab's Recruiter Bot
for external communication

PRODUCT

Answer questions about hiring specific for each company's team.

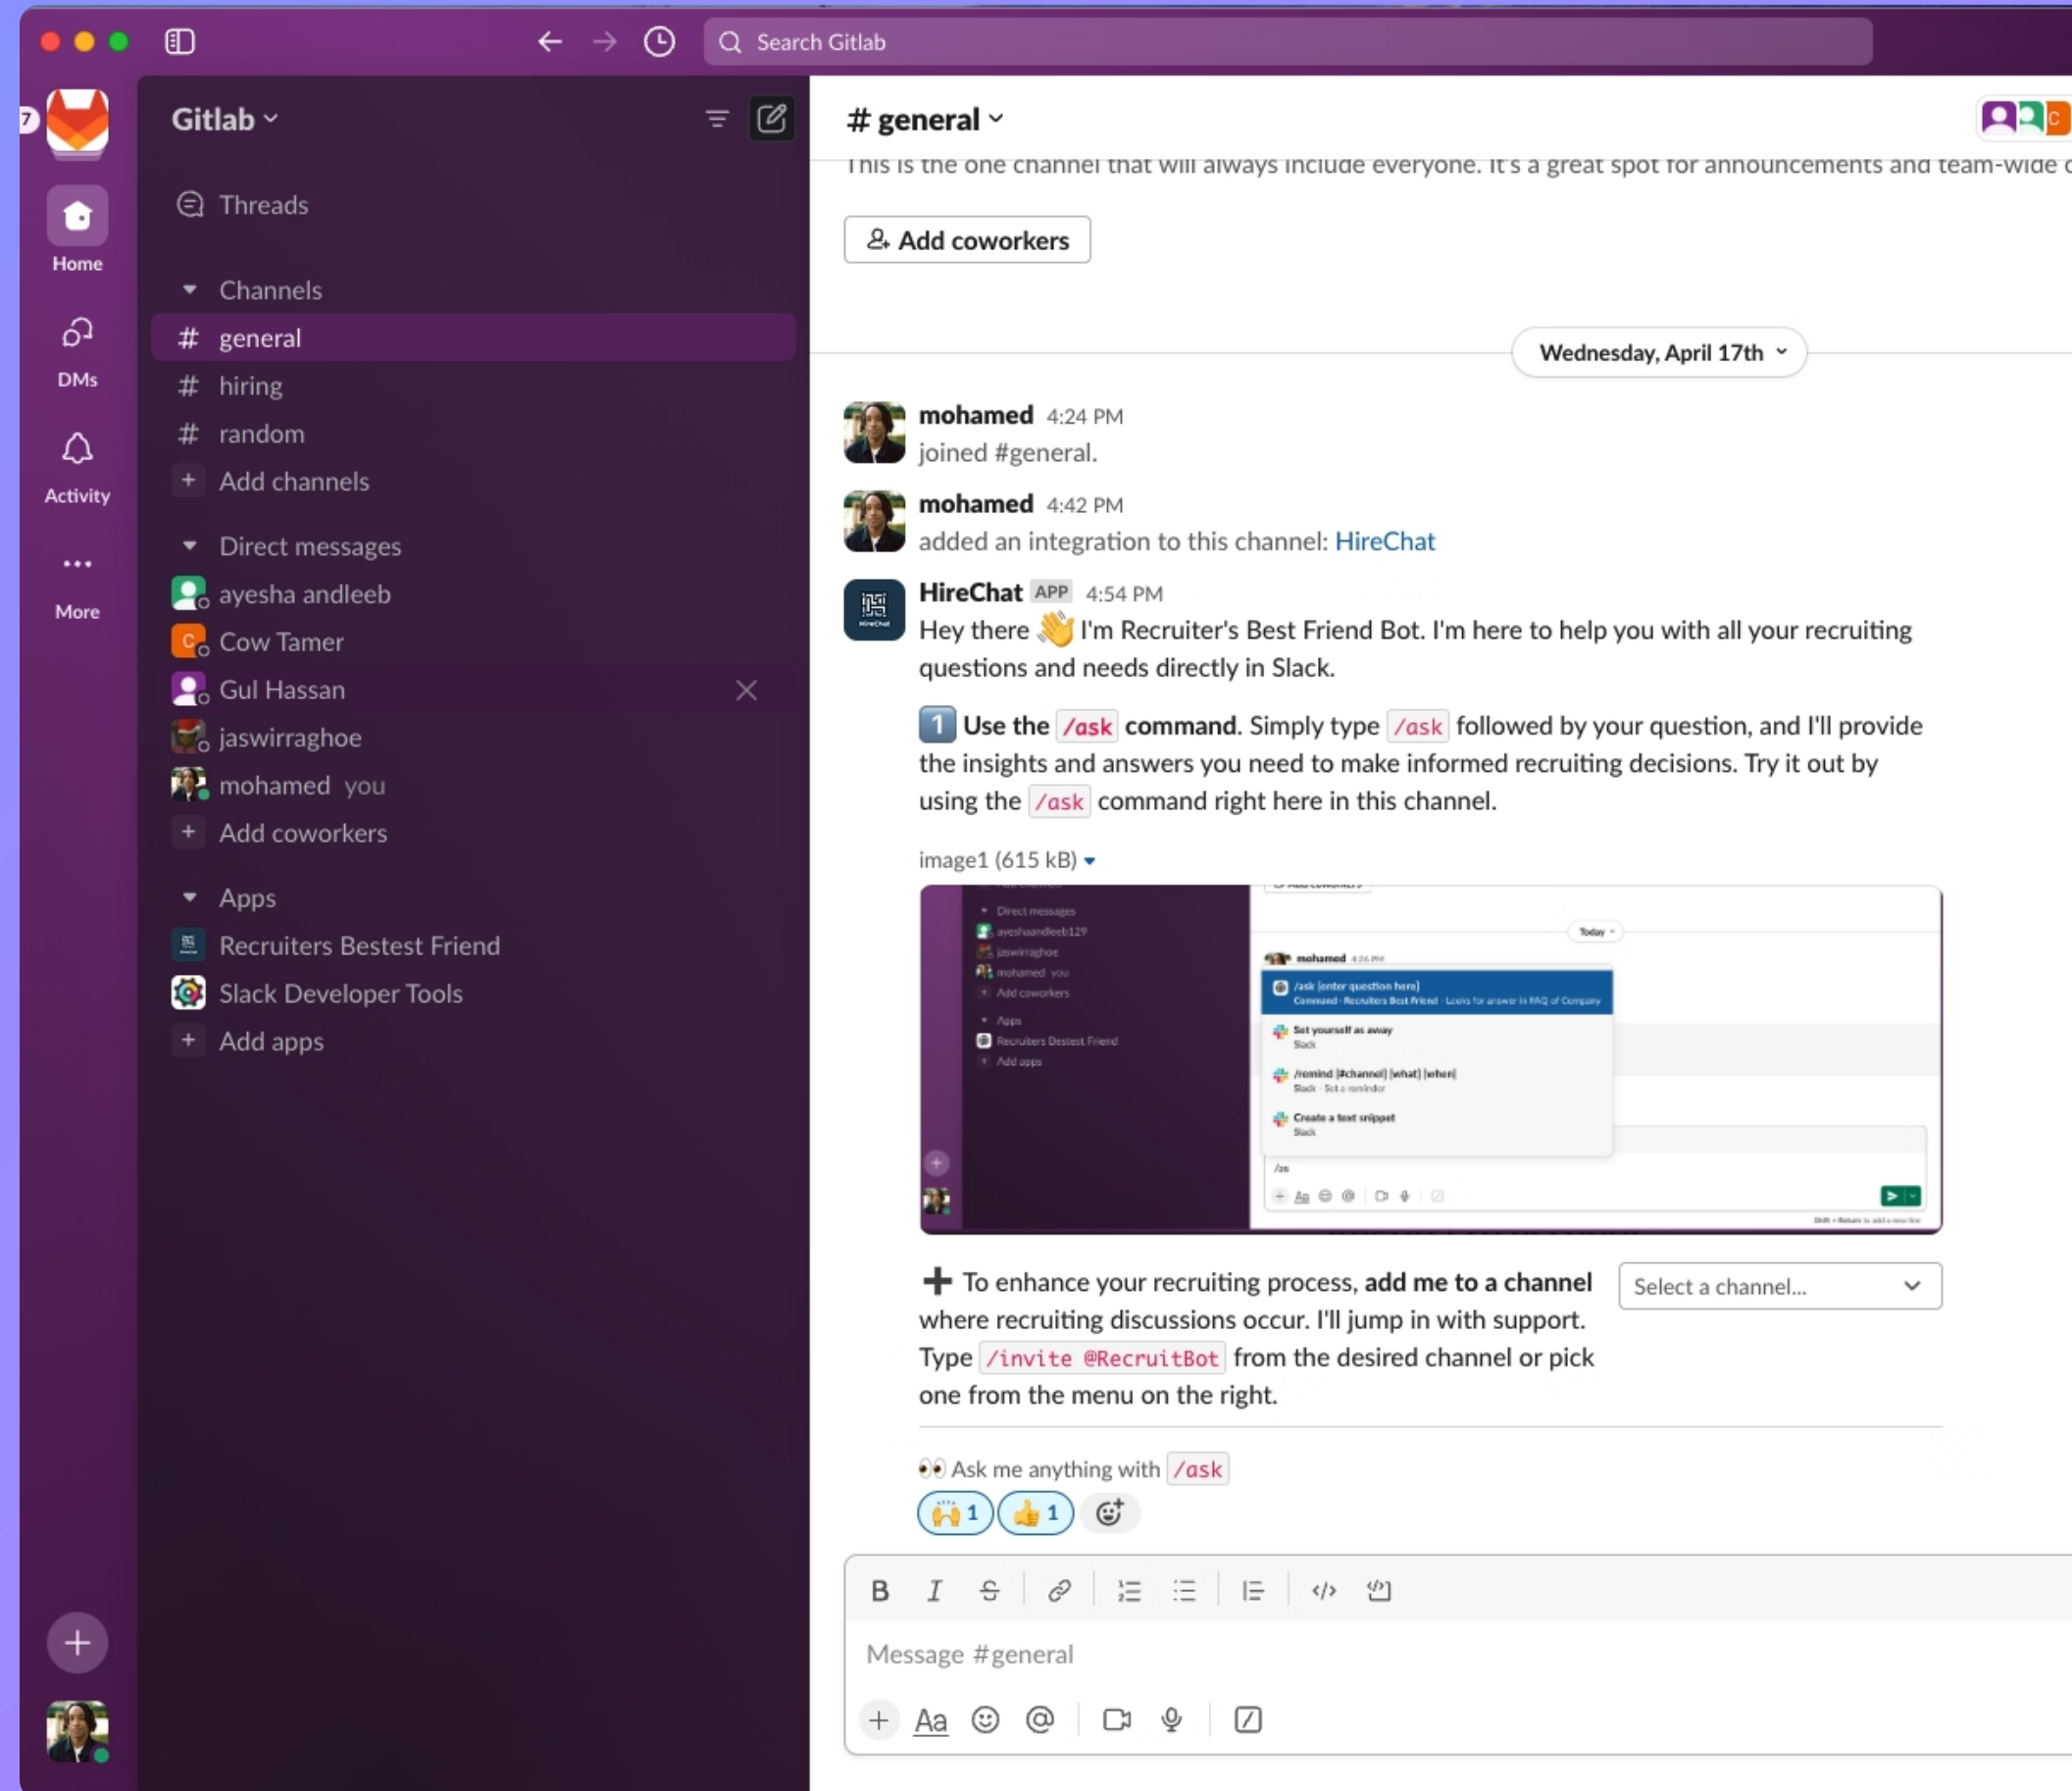

Surface the right info, at the right time.

Teams now live & breathe in Slack/Teams.

Use Case:
GitLab's *Slack*
Recruiter bot
for internal communication
