THE PROBLEM

As a PM, I spend a lot of time looking for time spent on a task to send the billing information

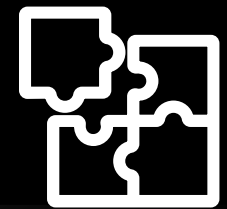

As a team leader, I waste a lot of time to go through all boards to see which issues are lagging behind on this sprint

As a developer, I'd like to see a simple summarized version of all the comments on Jira and Slack about a certain task

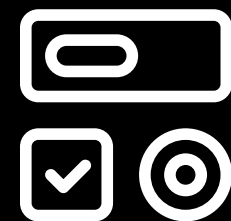

OUR SOLUTION

jefazo

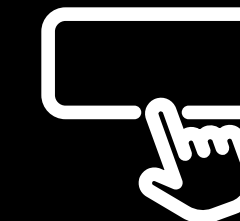

Cross-platform integration

- ✓ Monday
- ✓ Stripe
- ✓ E-mail sender
- ✓ Slack

Agile Loop Interface

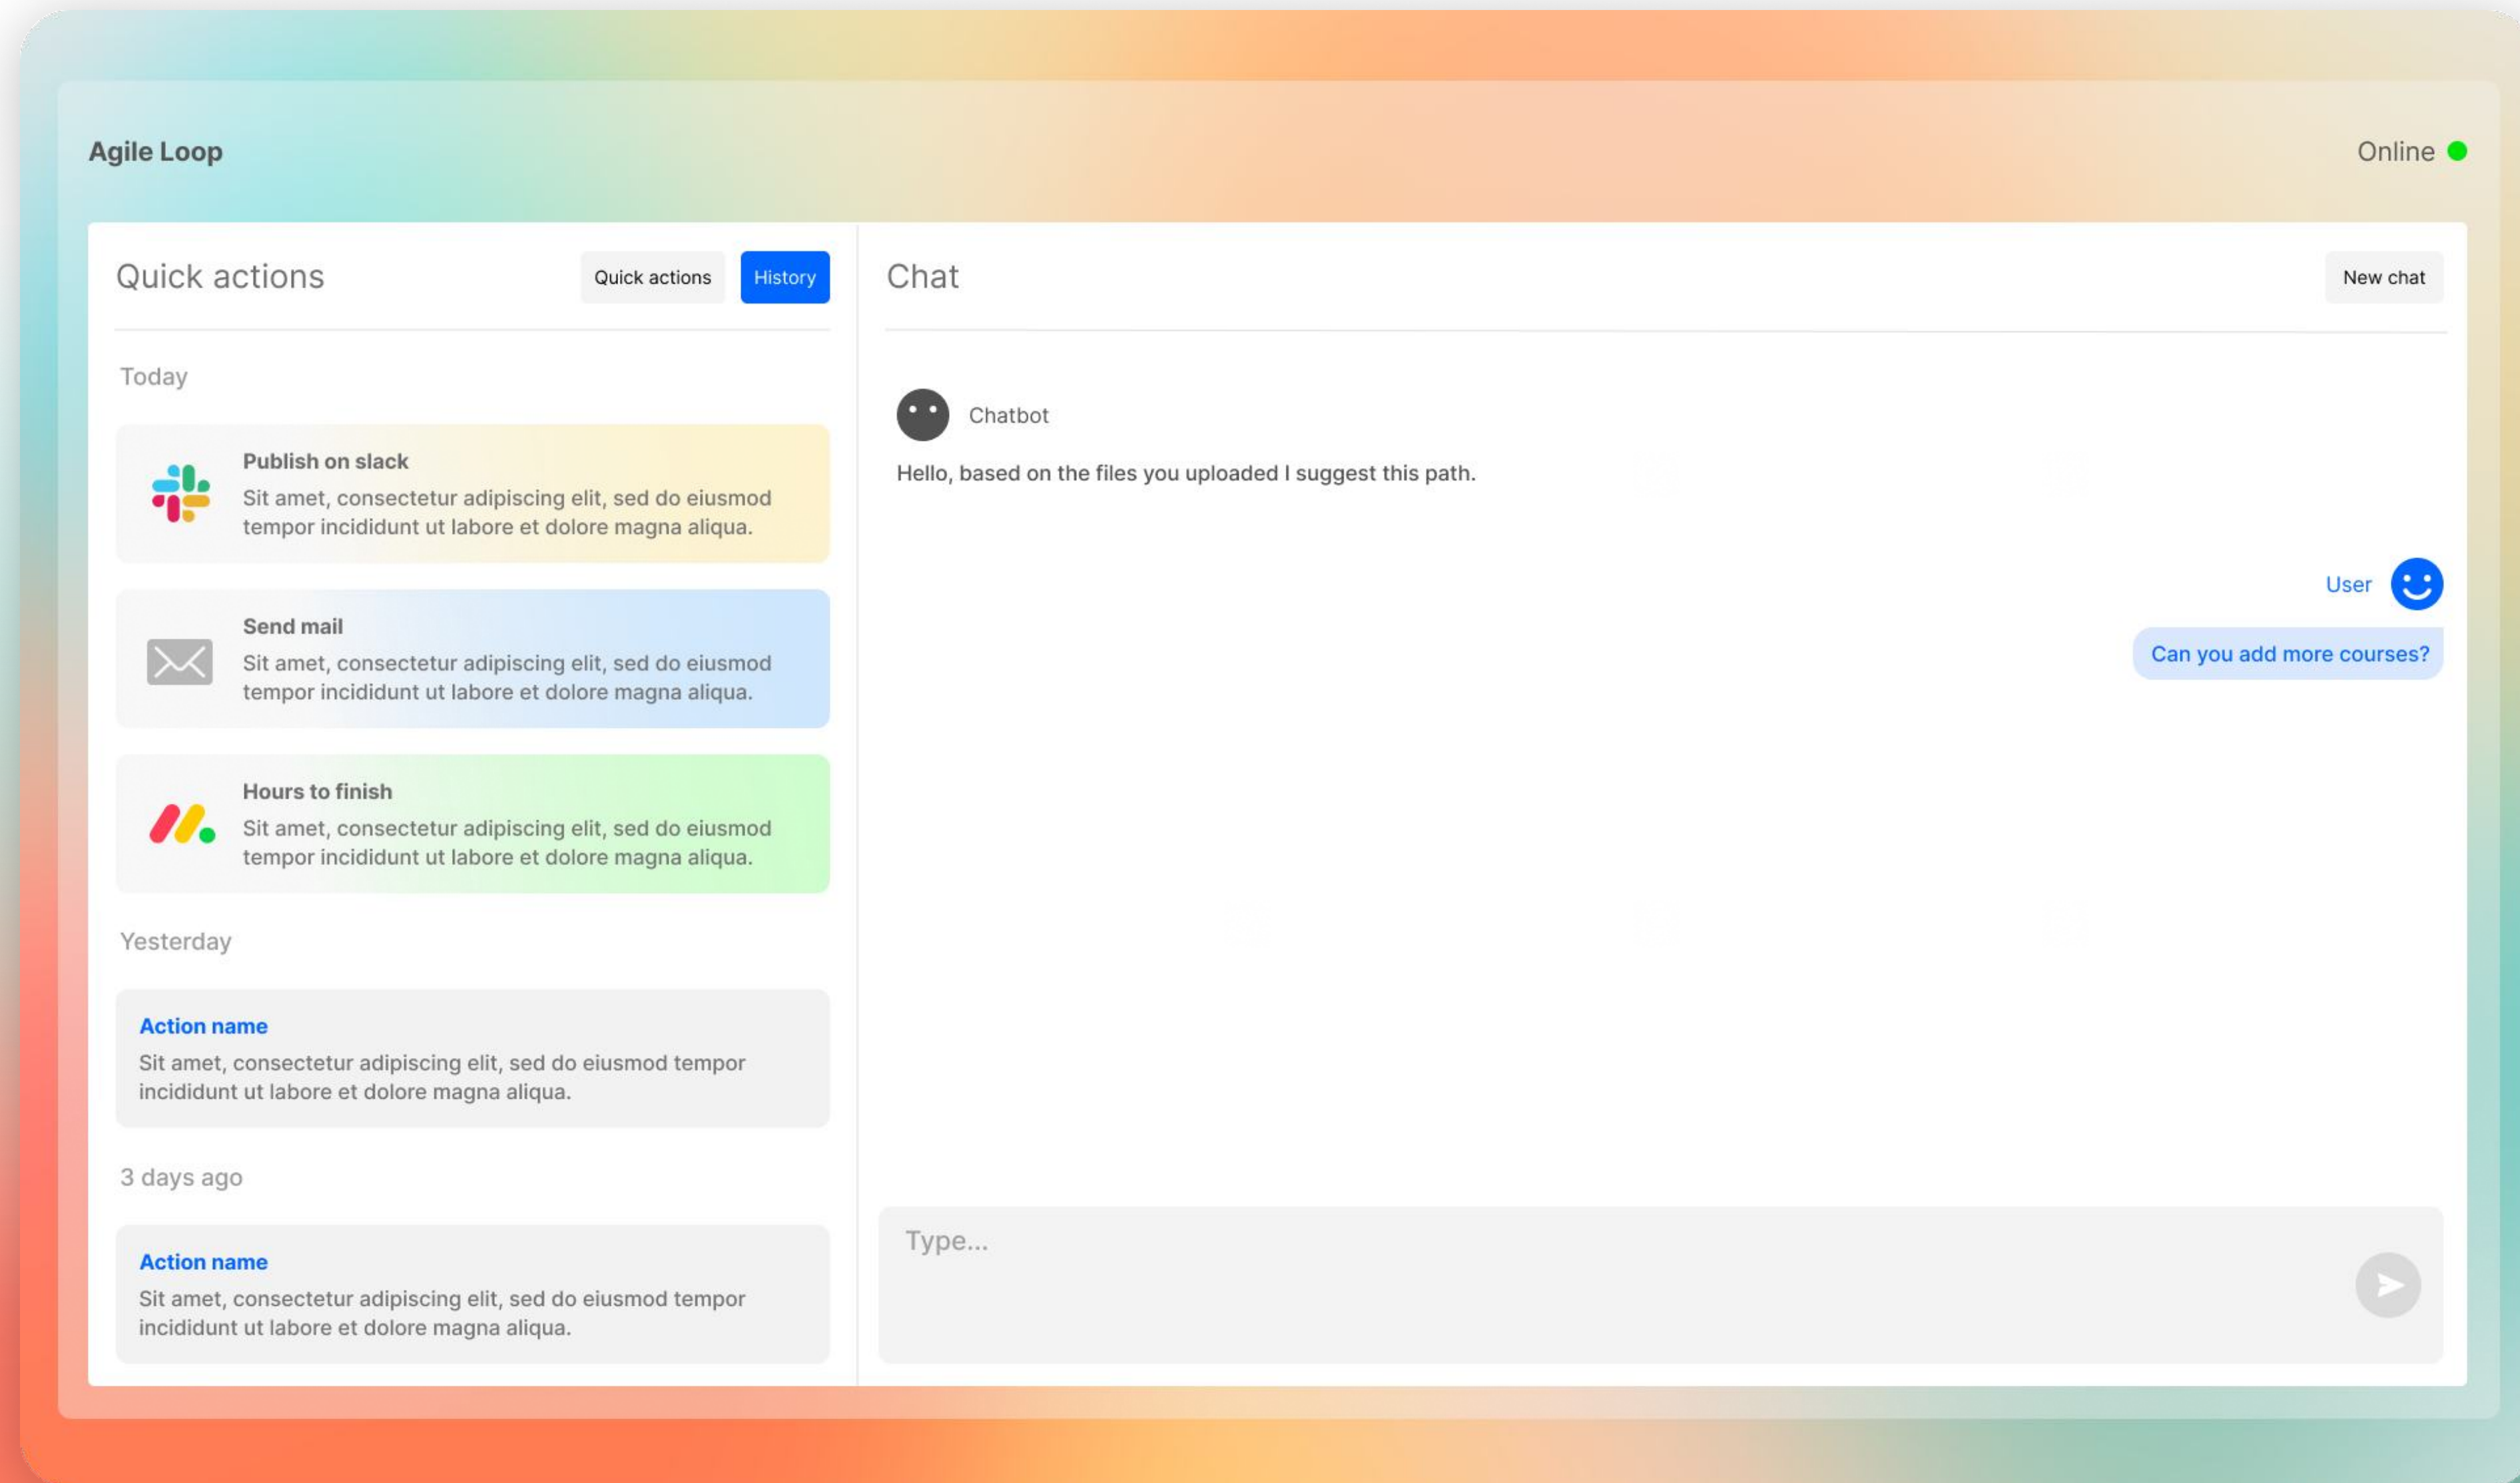

- ✓ Use natural language to interact with the APIs
- ✓ Chat history available

Quick action button

- ✓ OOTB key features
- ✓ Great for repetitive tasks
