Memes without Borders: Translating and dubbing laughter

Team: Quippr
Kirill Madorin

Language Barrier in Memes:
Few understand, fewer laugh

Telegram bot for seamless meme translation

Automatic dubbing of video memes
in different languages

Translation of image memes with
added captions (TODO)

Easy integration into Telegram groups (TODO)

DEMO

How it works

Message processing (python-telegram-bot)

Text extraction (Whisper)

Text translation (Claude)

Speech synthesis (ElevenLabs)

Dubbed video creation (ffmpeg)

1. Platform Expansion

- Integration with other messaging apps (WhatsApp, Discord)
- Standalone web application

2. Advanced Language Processing

- Context-aware translations
- Slang and idiom recognition

3. Multimodal Meme Analysis

- Image-text relationship understanding
- Video meme scene analysis

4. User Customization

- Personalized translation styles
- User-specific meme preferences

5. Community Features

- Meme creation tools with translation support
- Collaborative meme collections across languages

6. AI-Powered Meme Generation

- Cross-cultural meme creation assistance
- Trend-based meme suggestions

7. Analytics Dashboard

- Meme popularity across cultures
- Language learning progress tracking

Thank you!
