Quick HR

FREE UP YOUR TIME FOR WHAT TRULY MATTERS

BY @GAMA18K

This is the problem we want to solve.

Optimizing and automating repetitive HR tasks to reduce the workload on HR teams, eliminate delays, and improve overall productivity, allowing employees to focus on more strategic and value-driven activities.

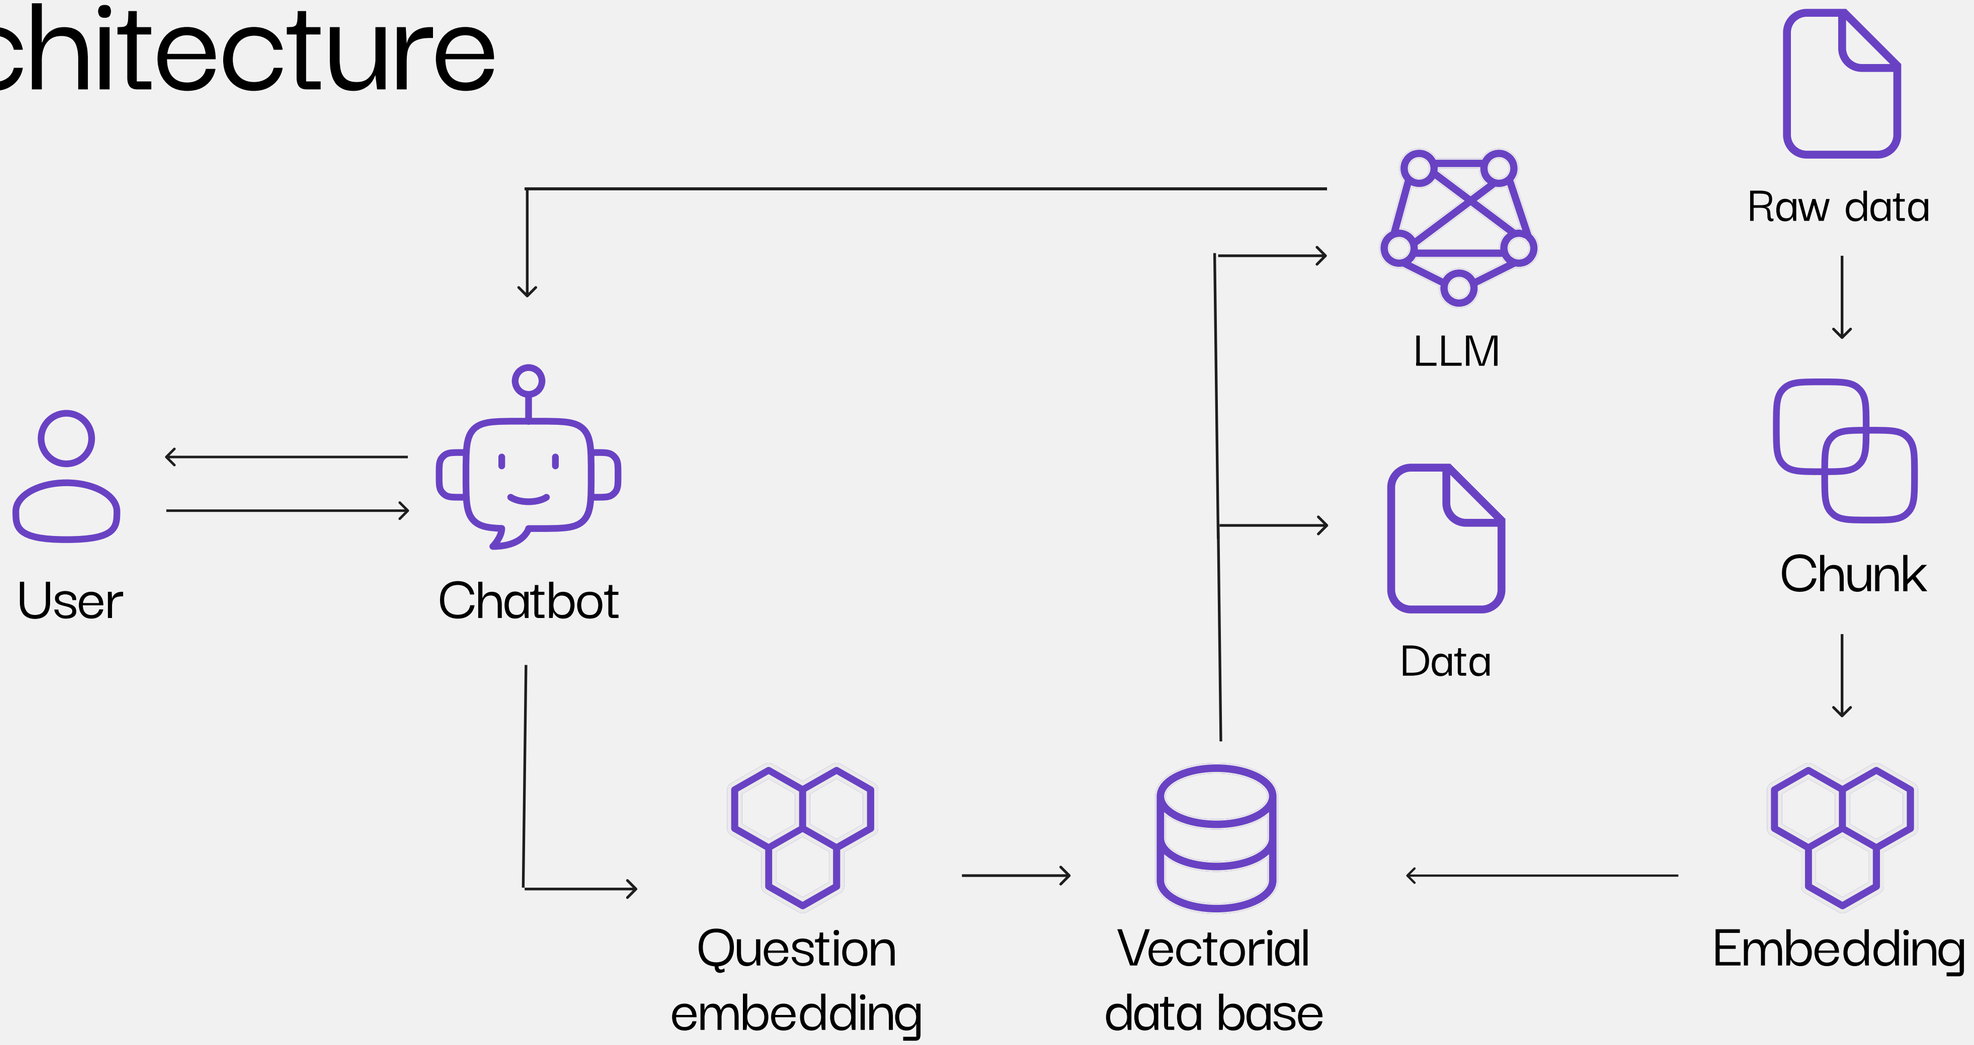
Architecture



Next steps

Time tracking: Logging check-ins and check-outs, correcting time entries, reviewing overtime, and tracking time banks.

Submission of medical certificates: Uploading documents and checking deadlines for absence justification.

IT support assistance: Submitting tickets for technical support.

Thank you

@GAMA18K
