THE CHALLENGE

Problem statement :

Businesses, healthcare professionals, and journalists struggle with real-time data extraction, analysis, and decision-making.

Goal :

Use DeepSeek's AI capabilities to create intelligent agents that fetch, analyze, and provide structured insights for finance, healthcare, and news sectors.

OUR SOLUTION

AI-Powered Agents for Real-Time Insights

- *7 AI Agents process & analyze real-time data.*
- *Uses DeepSeek + Yahoo Finance API + CrewAI + Python (FastAPI).*
- *Automates data research & decision-making.*

AI AGENTS

1. **Financial Reporter** – Fetches market trends
2. **Financial Advisor** – Provides investment insights
3. **Financial Query Answerer** – Answers finance-related questions
4. **News Researcher** – Finds relevant news
5. **News Reporting Analyst** – Analyzes news data
6. **Medical Reporter** – Extracts medical updates
7. **Medical Query Answerer** – Responds to health-related queries
- 8.

How It Works?

1. User Inputs a Query
2. AI Agents Fetch Real-Time Data from APIs
3. Agents Process & Analyze Data using AI models
4. Organized, Insightful Response is Delivered to the User

Tech Stack

- Front-End: React.js
- Backend: Python (FastAPI)
- AI Tools: DeepSeek, CrewAI, RiDistil AI Model
- APIs: Yahoo Finance API

KEY BENEFITS

- **REAL-TIME INSIGHTS – ALWAYS UP-TO-DATE INFORMATION**
- **INDUSTRY-SPECIFIC AI AGENTS – SMART & EFFICIENT DECISION-MAKING**
- **SCALABLE & CUSTOMIZABLE – EXPANDABLE TO MORE INDUSTRIES**

INNOVATORS

Future Enhancements:

- Expand to more AI agents for other industries
- Improve accuracy & personalization
- Integrate additional APIs for deeper insights
