

# Revolutionizing QA & Roadmap Generation with AI

## Title Slide

**Revolutionizing Quality Assurance & Roadmap Generation***Enhancing Customer Support & Strategic Planning with AI*

## Introduction

**What is This App?**An AI-powered solution that automates **QA scoring** for customer support interactions while **optimizing roadmap generation** for business planning.

## The Problem

-  **Challenges in QA & Roadmap Planning**
- Manual **QA evaluations** are time-consuming & inconsistent.
  - Difficult to extract **meaningful insights** from support conversations.
  - Inefficient **roadmap planning** lacks AI-driven structure.
  - Businesses struggle with **scalability and efficiency** in decision-making.

## The Solution

 **AI-Driven QA Scoring & Feedback**  **Automated Roadmap Generation via AI Agents**  **Objective, Consistent, and Scalable Evaluations**  **Faster & More Efficient Decision-Making**

## Key Features

1. AI-Powered QA Evaluation
  - Automated Conversation Analysis** using NLP.
  - Customizable QA Guide** for tailored scoring.
  - Real-Time Feedback Generation.**
  - Multi-Language Support.**
2. Intelligent Roadmap Optimization
  - AI Agents Collaborate** to generate structured plans.
  - Customizable Roles & Objectives.**
  - Data-Driven Decision Making.**

## How It Works?

**Step 1: QA Evaluation**  
1 Upload **QA Guidelines**. 2 AI **analyzes** customer conversations. 3 System **assigns scores & provides feedback.**

**Step 2: Roadmap Generation**  
1 Define **goal & roles**. 2 AI **agents generate insights**. 3 System **delivers an optimized plan.**

## Benefits

 **Saves Time & Resources** – Reduces manual efforts.  **Objective & Scalable** – AI ensures unbiased evaluations.  **Data-Driven Insights** – Enhances decision-making.  **Improves Customer Support & Strategy Planning.**

## Ideal Users

 **Customer Support Teams** – Automate QA scoring.  **CX Managers** – Optimize customer service.  **Product & Operations Teams** – Plan strategic roadmaps.  **AI Enthusiasts** – Leverage automation for efficiency.
