AussieHunter

Find the Hidden Founders

trepreneurial Talent

THE PROBLEM

Australia's Hidden Talent Remains Undiscovered

$4.0B startup funding in Australia (2024)
11% growth in funding from previous year
234 startups valued over $100M+

Who Remains Hidden?

- ✓ Scale-up veterans with vesting options
- ✓ Migrant entrepreneurs building quietly
- ✓ PhD researchers with commercializable IP
- ✓ Side project builders working "heads down"

> *"Traditional networks miss the next wave of Australian startup talent, especially from diverse and underrepresented backgrounds."*

THE SOLUTION

AussieHunter: Mapping Hidden Founder Talent

Searchable Founder Database

- Comprehensive profiles with key metrics
- Advanced filtering by expertise & background
- Diversity analytics & talent pool insights
- AI-powered talent discovery algorithm

Key Differentiators

- Focus on individuals, not just companies
- Diversity-focused tracking & metrics
- Discovers talent that traditional networks miss
