

Cartify: AI Agent That Transforms Tasks into Carts

We're Cartify, the AI-powered shopping assistant designed to revolutionize how people shop online. Forget endless scrolling and abandoned carts. Cartify understands your goals and builds the perfect shopping cart in seconds.

Simplify Shopping with Cartify

Shoppers face common frustrations:

1 Overwhelming Choices

I wanted to cook biryani. Google gave me 23 ingredients and 14 YouTube links. By the time I found the right products, I gave up 4 and ordered pizza.

2 Repetitive Trips

I shop every week. Same items. Same aisle. So why does it still take me 45 minutes like it's my first day on Earth?

3 Budgeting Challenges

I want to shop for this winter but my budget was only \$100. How do I customize my cart to stay under budget?

Cartify solves these everyday shopping frustrations by transforming your task into a personalized cart, keeping you on budget and on track.

How It Works: Seamless User Journey

SeeCartify in action:

- User types: "Make biryani for 5 under '1700"
- Cartify generates a smart, editable bundle in 2 seconds.
- User adjusts quantities, adds/removes items.
- Confirms and checks out 3 done.

Visual, fast, and intuitive.

What Makes Cartify Smart?

Understands goals, mood, season

Respects budgets (<under 1300î)
