Secure Data

MCP auto-fetches & encrypts your data

Action Required from You!

To unlock personalized AI guidance, please fill out the financial credentials form. But don't worry — thanks to our integration with Fi's **MCP**, most data (like your income, expenses, loans, and assets) is **auto-fetched**. You won't need to enter everything manually.

Your data stays encrypted and secure. We use it only to serve you meaningful insights.

Can I buy lamborghini car?

Can I buy lamborghini car?

The allure of a Lamborghini! While it's understandable to have a desire for luxury, let's take a closer look at your financial situation to see if buying a Lamborghini is a viable option for you. Based on your financial data, your monthly income is ₹150,000, and your monthly expenses are ₹85,000, leaving you with a disposable income of ₹65,000. You have a significant home loan EMI of ₹39,000 and an auto loan EMI of ₹12,000, which already account for a substantial portion of your income. Now, let's consider the cost of owning a Lamborghini. The purchase price of a Lamborghini can range from ₹3.5 crores to over ₹6 crores, depending on the model. Assuming you opt for a lower end model,
