

# Newsifai.com

Ai powered news insights!

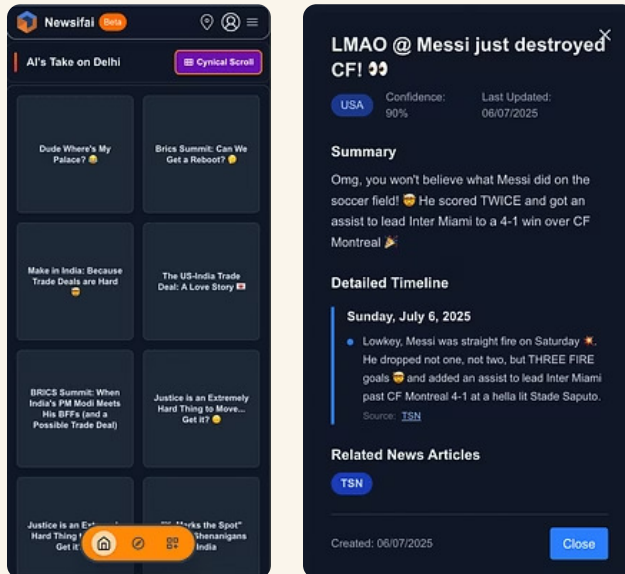

Made with **GAMMA**

# What's the idea?

We're building an AI-powered personal news dashboard. Think of it as your homie but make him smart and factually correct who only says what truly matters—market info, major news events, and public notices—all in one place while staying funny and engaging. Unlike generic web-apps that give news, this website make those news interesting and relevant.

# Component 1: News Intelligence

Ai created and managed latest topics that are renewed every few hours, in the way you understand, conventional, cynical funny, or new age genz lingo.

# Smart News Layer

## Mode Selector

3 modes to toggle between to make news more relevant, engaging and funny for everyone.

## Location-Based News

News only from your selected region or country.

## AI-Curated Topics

Topics created and updated continuously every few hours by AI.

## Advanced Features

AI confidence, backlink, and many more features.

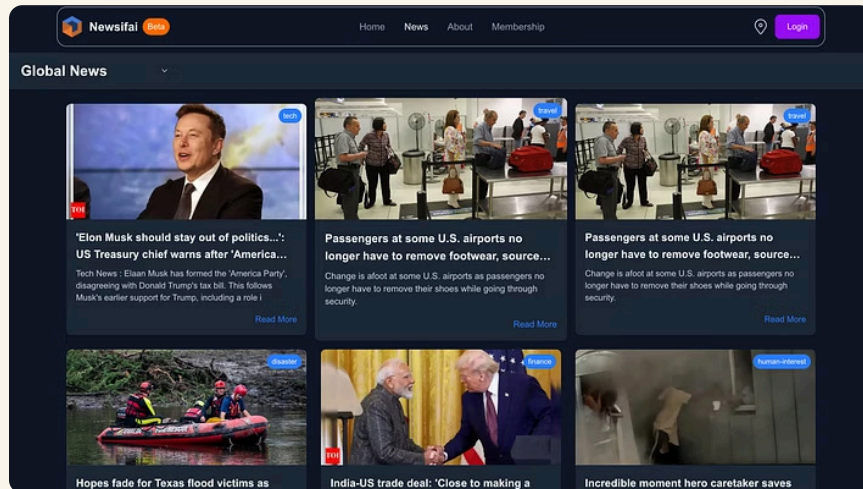

## AI-Powered Data Management

Everything fetched, filtered, and stored via AI in the database.

# Component 2: Info Capsule

## Latest News Evaluation

Latest news evaluated by AI to showcase importance.

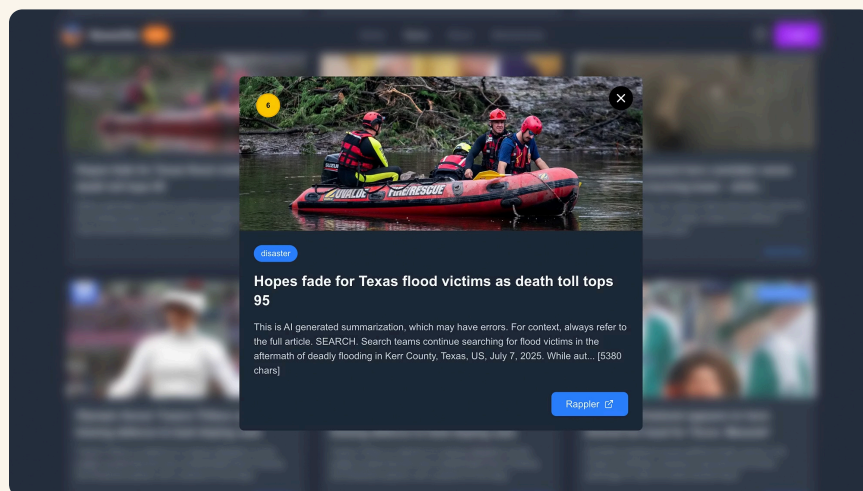

## Backlinks for Further Reading

With backlinks to the original article, if you want to read further.

## AI Summarisation

And summarised by AI.

# Require only one window to scroll between news or topic

Clean, Dashboard-Like Layout

Easy to understand layout.

Informative content

Suitable for all age group.

Designed for Users

With college and corporate users in mind.

Easy onboarding

One-click sign-in or sign-up

# Join Us on This Journey

Website is still in beta phase so, join help me make it better, reach out to us to make this vision come true.
