MARKET SCOPE

TAM – TOTAL ADDRESSABLE MARKET

Focused Segment Al Styling & Try-On

Growth driven by Al-powered styling and e-commerce intelligence.

(Zion Market Research, Vogue Business, 2024)

Global Fashion Tech Market (Grand View Research, 2024)

Including design, AI styling, virtual try-on, smart apparel etc.

(Grand View Research - Fashion Tech Market Size Report, 2024)

Our market focus is clear: StyleGenie taps into a \$46.8B AI styling and try-on opportunity, one of the fastest-growing segments within the \$239B fashion tech industry.

MARKET SCOPE

SAM Serviceable Addressable Market

E-commerce sector companies

Total market size of e-commerce sector companies that could benefit from Alpowered fashion personalization tools like StyleGenie.

SOM Serviceable Obtainable Market

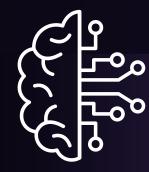

We aim to capture 5–10% of this market within 5 years by partnering with mid-to-large fashion retailers and e-commerce platforms.

REVENUE STREAMS

SaaS for Fashion Enterprises

SUBSCRIPTION-BASED API ACCESS (SAAS)

Brands subscribe to
StyleGenie's AI
engine via monthly
or annual plans,
accessing
personalized outfit
generation and
styling intelligence.

ANALYTICS DASHBOARDS (DATA MONETIZATION)

Merchandising and marketing teams pay for access to dashboards and performance insights — via usage-based or tiered pricing.

WHITE-LABEL LICENSING & ENTERPRISE PACKAGES

Custom integrations, visual styling alignment, and on-prem options offered to large fashion brands under enterprise contracts.

CIRCULAR FASHION PARTNERSHIPS

Fashion brands can license StyleGenie's Al engine to enable styling and recommendation flows for resale, rental, and other circular business models

COMPETITOR ANALYSIS

Recommendation engines

Great for single-item discovery, but lack full outfit generation.

AI stylists

Often rule-based or chatbot-like, lacking generative intelligence or feedback loops.

Virtual try-on

Focused on visualization but disconnected from styling logic or personalization.
