

MASHWAR
PITCH DECK

Problem

- A lot of places around you
- 15 h/m of using Google map
- Make the decision

Solution

Mashwar is an AI chatbot that understands users based on a simple game and suggests the perfect place for them to visit.

It's like having a personal assistant who knows your preferences.

Based on the given information, I would suggest visiting Oasis with a rating of 4.1 and review count of 183. This place seems to have a good rating and a decent number of reviews, indicating that it may be a popular spot. Additionally, the name Abdullah seems to be energetic and looking for a good time, and Oasis may offer a fun and lively atmosphere.

Target

Our target market is users who use navigation services like Google Maps frequently. These could include frequent travelers, city dwellers, or anyone in need of location-based suggestions.
