Connect

Team members:

- Shahad Khalid Alyousef: Technical Devoloper
- Turki Khalid Alyousef: Designer
- Iman Saeed Alzahrani: Business Developer
- Deena Mohhamned Almuaither: Leader
- Khalid Osama Osman: Programmer

Problem

- finding the right people can be a challenge for any job or any product.
- Companies often spent so much effort to find people who fits the event
- Finding all the fitting people can be challenging so AI recommendations will make it easier to connect.
- The difficulty of finding people to collaborate with.

Solution

Connect, a new platform that helps companies and organizations find the most effective people for marketing campaigns, volunteering, work, and more.

Features

AI-powered matching

Companies and individuals are matched based on their skills, experience, and interests. This helps companies find the best talent, and it helps individuals find the right opportunity

Profile creation

Profile makes it easy for companies and individuals to find each other and connect

Search

Companies and individuals can search for each other based on their skills, experience, and interests. This makes it easy to find the people you're looking for.

Event management

The platform can be used to manage events and help people find events they are interested in.

Features

Messaging

Companies and individuals can message each other to start a conversation. This is a great way to learn more about each other and to build relationships.

Social networking

The platform can be used to create a social network that helps people connect and build relationships effectively depending on their: skills, personalities.

Developmental recommendations

AI-powered recommendations help individuals improve their skills and advance their career and what can they do together according to their specialties .

Learning and development

The platform can be used to provide learning and development opportunities that help people improve their skills and knowledge in addition to offering effective plans to the companies.

SYSTEM SPECIFICATIONS

Software idea:

Connect is a platform that helps companies and organizations find the most effective people for marketing campaigns, volunteering, work, and more according to their requirements. In return, it helps individuals at events, conferences, and others to connect with the most effective people based on their personal characteristics, professional experience, and interests and link them together. It suggests developmental recommendations based on the social network and user experience using AI technology.

SYSTEM SPECIFICATIONS

User categories:

Registration is available for:

- Individuals
- Companies.

Benefits

For companies

it can help them to:

- Save time and money on recruiting
- Find the best individuals for their needs
- Improve company performance.
- Create a more positive and productive work environment

For individuals

can help them to:

- Find the right job or volunteer opportunity
- Connect with people who share their interests
- Develop their skills and advance their career

How it works?

Connect is easy to use. Companies and organizations create a profile and then specify the skills and experience they're looking for. Individuals create a profile and then list their skills, experience, and interests. Once a profile is created, companies and individuals can search for each other and connect.
