Problem

33% of all Saudi are at risk of cardiac diseases

Solution

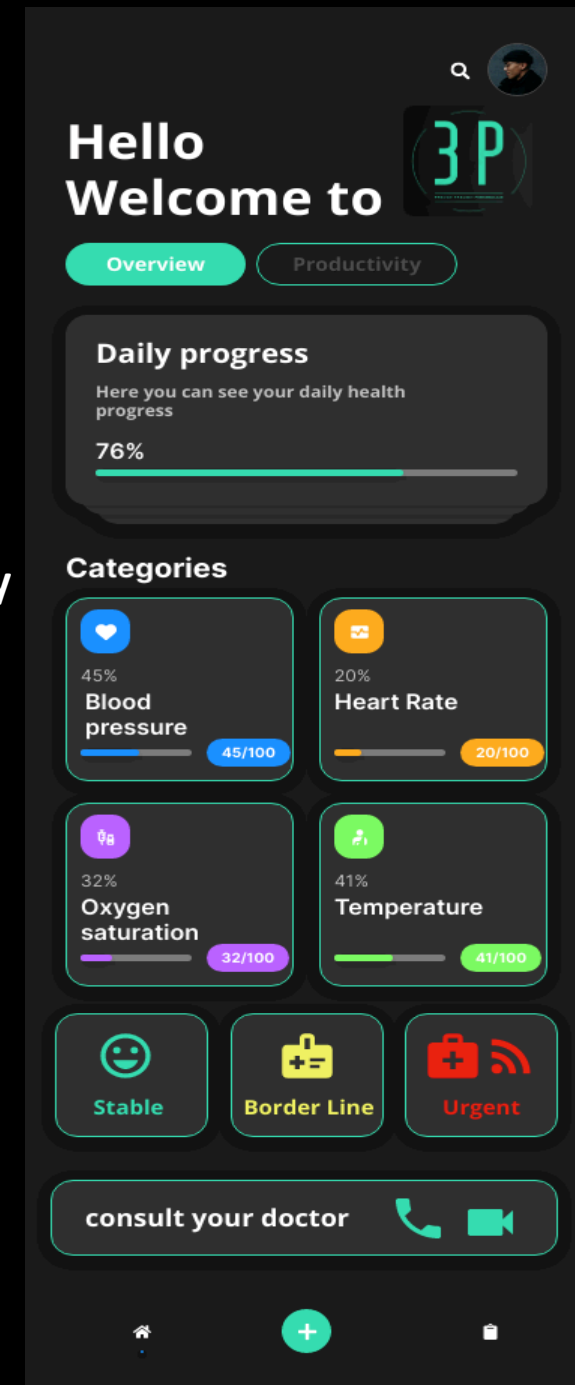

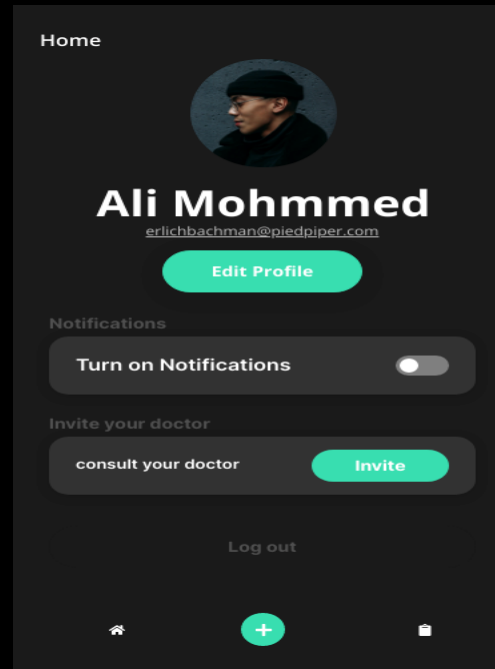

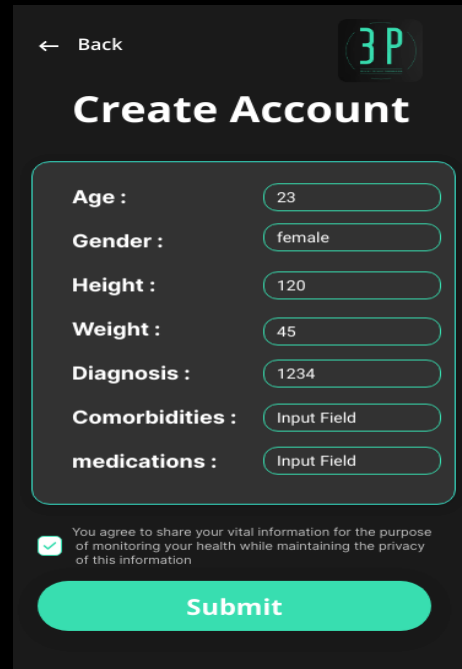

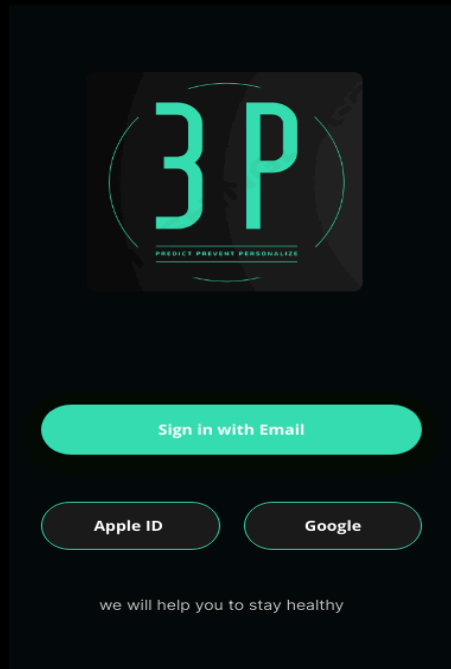

AI powered application in smart watches to **Predict, Prevent, and Personalize** health care for cardiovascular patients

DEMO

Predict risk severity (Green, Yellow, Red)

Prevent deterioration by giving recommendations as notifications

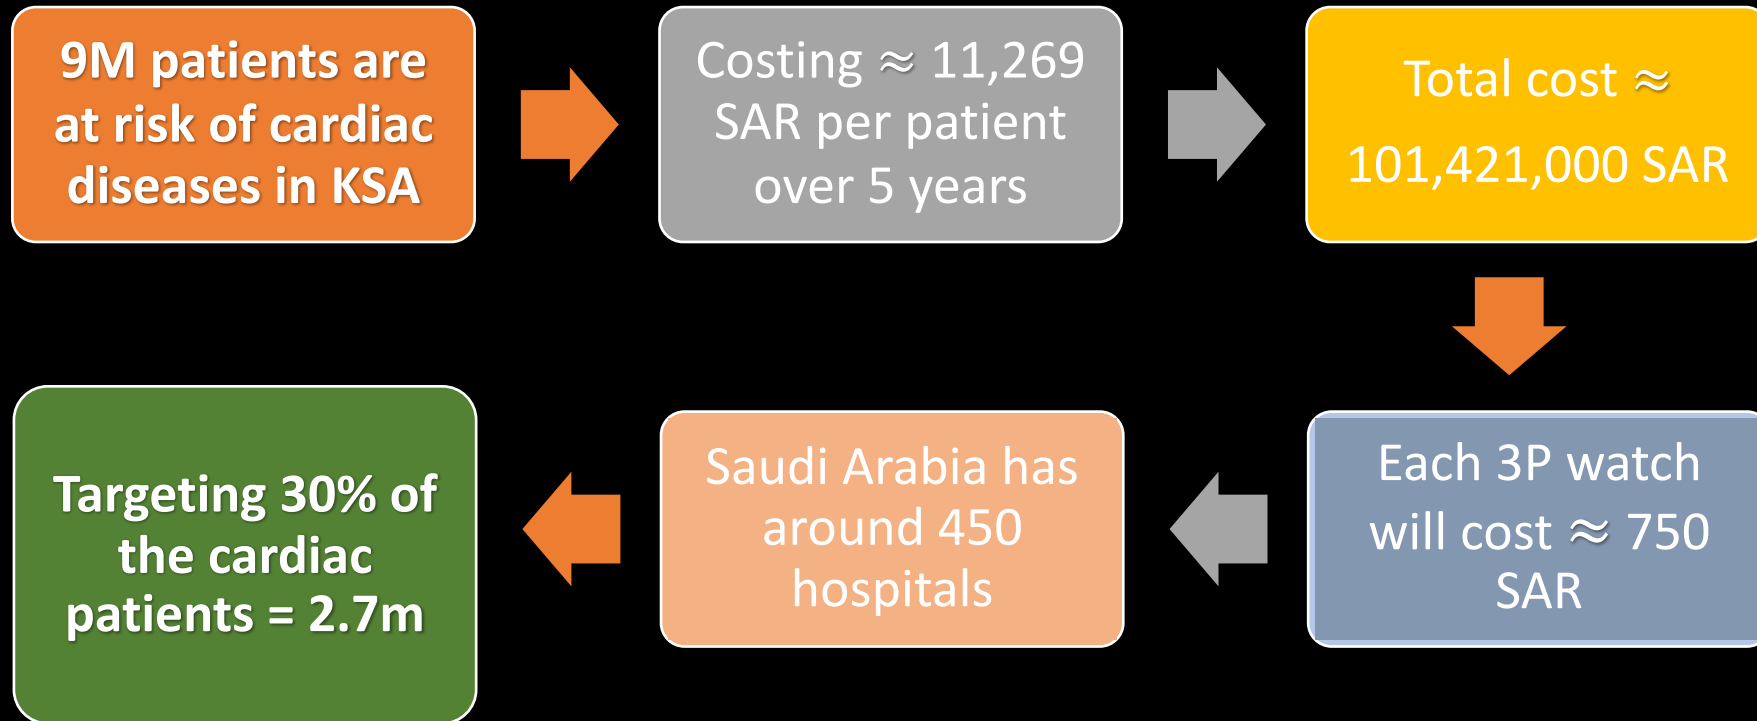

Personalize patient care by inputting demographic and patient medical history

Prototype

Business model and financial projections

Market ≈ 2.25 Billion SAR

3P will Save Lives

A large, stylized teal logo consisting of the letters '3' and 'P' is centered within a thin teal circular border. The '3' is on the left and the 'P' is on the right. The letters are bold and have a slight shadow effect. The background is dark grey.
