What is the Problem?

Traditional F&B practices result in high staff costs, outdated diner experience and missed data opportunities

What is your Solution?

Frank, an AI-Powered waiter that helps restaurants enhance guests experiences and boost revenue, by answering questions and providing recommendations like:

- I am on a low carb diet, what should I eat?
- We are a group of 4 people with a budget of 250 SAR, recommend meals within budget?
- Ask Frank Anything!
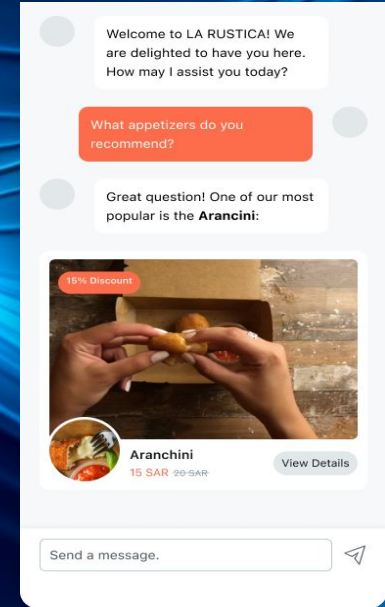

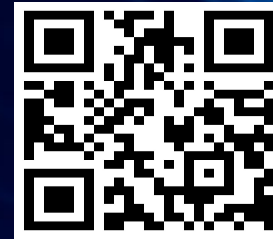

How will this application make Money?

- Subscription model
- Transaction fees

What is the Future?

A fully AI- Powered and personalized experience where restaurants will understand customers better, unlocking potential pricing opportunities, and customers will enjoy a digitized and intelligent experience that we never experienced before!
