Technology

Laravel, OpenAI, Zapier, Trello, Typeform

1. We used Typeform to collect data.
2. We used Laravel for the Backend to process the data
3. We used OpenAI to analyze the data
4. We used Trello as a Dashboard for the end user.
5. Zapier as a glue between all parts of the MVP

Q&A

- Please feel free to ask any questions or share your thoughts.
- We welcome open discussion and knowledge exchange.

Thank You!
