P

Dear Rabbi Kaun,

210 P.S. It was wonderful to hear that you have been chosen as the new President of Yeshiva U. You are of course the obvious choice - I had been hoping you'd be selected. The perfect choice! You have always shown a sincere concern for the young persons in your community. It is so important for the Y.U. students to feel that they have someone who honestly cares - & I'm sure you do, & will always be open to the students' needs. We are with you the best of luck in your new position!

As an ex-Stern student, I hope you will accept a suggestion from me. Stern is such an important part of the Y.U. community and of the Jewish world in general. Unfortunately, I have felt that Stern was not viewed as seriously as the other branches of the University. A member of the women tree felt a lack of respect for them as active, contributing members of the Jewish community. I strongly believe that the role of

Stein is a crucial one in developing & strengthening Jewish women. I hope that as the new president of Y.U. you will remember Stein, and advocate its growth. Thank you - I'm sure you don't mind my unsolicited remarks, it's just that I feel very strongly about equal education + its support - for Jewish women + would like to do all I can to help further its continued growth.

My whole family, of course, is quite excited about your election - they are all away but hope to wish you 21st B'n in person when they return from overseas. Please accept my best wishes in my own name & of course in my parents' name - send my best to Rebelyin Lamm as well. Thank you for all your help in my job search!

I hope this doesn't mean our favorite Robli won't be leading his shule anymore! 21st B'n again.

Sincerely
Barbara Lerner
