Dear Norman:

Please accept my heartfelt mazol tov upon receiving your Ph.D. and your promotion to a professorship.

I am sure that with this kind of setting, you will be able to contribute even more towards the renewal of Jewish life.

Not that titles can really add anything to you, but it's good to know that you no longer have to concern yourself with winning the approval of others in order to be certified as a learned man.

Warmest mazol tov and all the best.

Cordially,

  
Walter S. Wurzburger.
