Rabbinical Council of America

Dear Charles:

I am somewhat appalled by the poor reaction of most of our colleagues to your original letter concerning the ZIM situation. Therefore, even though both I and Rabbi Jung and our President wrote letters of protest as soon as we received your notification, I have appointed a committee of several people in the congregation to contact others and to write as per your request.

I will be sending you copies of these letters when they become available to me.

Sincerely,

RABBI NORMAN LAMM
