Dear Rabbi Lamm,

Now that the Exodus March is successfully over I should like to congratulate you for having inspired and seen to fruition a significant event in the history of American Jewry.

The theme of the day was perfect. If you had repeated your sermon of this past week it would have made an excellent keynote speech. The speech you actually delivered was the high point of the program at the U.N.

We had a chance to appreciate some of your tribulations in planning for the march when, at the last UOTCA Communal Relations Commission meeting we actually had to argue with and cajole the administration and staff to get a letter sent to member congregations.

Let's hope we won't again need an Exodus March for Soviet Jewry.

Sincerely
Joe Kaplan
