

1. FIRST WORLD PROBLEMS - 2 PG's for most people part 3 > 21  
 - now being opposed w. new technology: pill, abortion, sterilization  
 - WORLD: IDEOLOGY - 2 PG's. varied roots - socio-economic,  
REALISTIC: survival of man in shrinking resources.  
 - so accepted first speech 5/75 think - 2 years -  
 national news - F-Serie materials

Hence: Bibl. concept vs. (seemingly) UNIV. MORAL IMPERATIVES

2. MY INTENT'N: 2 PG = DANGER + SURVIVAL + SYNTESIS  
 even if any valid  
 • LAST 30 yrs. WORLD pop: 2 → 3 1/2 BILLION; US: 17+ → 14 MILLION  
 • BLACK MATE AM: US = 20% less than white AM's  
 • went down ('81) 3.7% prop USA → 2.87.  
 • MEDIAN AGE: US = 28; BLACK US = 21; US. VS = 37  
 • ∴ AGE DISTRIBUTION AM: 3Y: 10-14 yrs. / 12 = 9.7% ;  
 $5-9 \text{ yrs} = 6.8\%$ ;  $< 5 \text{ yrs} = 6.7\%$ .  
 • 50 yrs. ago silent bk Ger'n: Ger. 3Y finished (asym.  
 interv. birth rate) unless: 3 ch/fam! (w/o Hitler!)

→ consider 2PG most likely threat of fam - others: New Zealand,  
 Switzerland, Germany, Italy, Spain. But any attack fam = attack 3rd time

### 3. IMPACT, DANGER

- SECURITY ISR, + INFILTRATION IN US, WORLD.
- 6 MILLION WWII. POWS, MISSING, GERMANY MASS  
 UP - WE LOSING
- MICHEL DEBRE' (L'Humanité, 1/75): "Demographic"  
 "Family policies + Nat. policy - HAND IN HAND"
- PRESENT TURMOIL LIBANON - DEMOCRATIC REPUBLIC  
 Maronite Chris vs. Moslems!

→ 50% agree 2PG rest of world - NOT in Jews!

### 4. LEGENDS 2PG = JEWS. ALSO IN STERILIZATION, VACCINATIONS

- IRRAZI - 9A. 7 Y. WORLD POP = 8.12; CHINESE + URGENT -  
 POP. EXPLOSION. AND THIS 3% save world by suicide?  
 (Himmler: My final dict. health death = not prob. 3M = 1716)
- ALMOST agree Art Buchwald - 1981 2PG bec. now  
 gen. parents with low self-esteem, not want  
 representation in kind...

DISCUSES J. DEMOCRACY 34-V: HIST-HAL-ETHICS

But opposed 265 varieties is not only difficult - but dangerous:

## 6. HALAKHIC:

## 7. ∴ OVERALL REPLY BARTER 286; it's seek apply to Jews

- ALSO - HUMAN + J. OBLIG: CONSIDER GRIM SURVIVAL STRATEGIES (HMMLRB). assume ATTRITION RATE 25%.  
 $(\text{Bartender profit} = 50\%) \cdot \text{Then if every J farm} = 2 \text{ch (or } 2.1\text{),}$   
 $\text{then 100 farms will in 4 years} (100 \times 4) \rightarrow 32 (= 25\% \text{ loss})$ .  
 Assume 10% attrition, 4 years  $\rightarrow 366 \text{ Jews}$ .  
 $\text{Koop 25\% ATTRITION, but - 3 children/farm} \rightarrow 160 \text{ Jews!}$
- PRESENT RATE - NOT 286. But in - ZERO POP'N !

8. ETHICS: Assume there world problem & need cur' b pop'n. How avoid eth. very'g set example?

ANS - "ecological imperative" - zebras, turtles,  
 Ann. English, Dr. de Blij, Kipling & Kingfisher - & JEWS  
 Besides - arm against 286 Jews in anyone - libertarian ground

9. SO: HIGHER POP. RATE - MUST BETTER COMMUNAL FARM
- NOT (FOR) - UNLIMITED ABORTIONS
  - NOT "y" - limit family prof 286. no rebirth
  - UNPLANNED MARRIAGE (e.g. = center vasectomies)
  - NOT ENOUGH LARGER FAMILIES - not postpone nearly child-bearing; maybe transition-free for families  $> 3$  children...

10. UNQUOTE: REMOVE LG FAM'S = DISADVANTAGE: SOLY UNPLANNED MARRIAGE - Ann. English, Dr. de Blij; cur' world in 100 years.

BUT - Q: will there be Jews in world.

- ADVANTAGES - filled?
- diff. principles: דת נורא ביה וברוחו - מילוי קב"ה יפה נפה  
 $\rightarrow$  מילוי קב"ה יפה נפה - ? ערך נורא מילוי  
 $\rightarrow$  מילוי קב"ה יפה נפה - ? ערך נורא מילוי
