Dear Norman:

Thanks for your letter. I regard Yavneh as a seed that may become a great oak. It's not easy to recognize such seeds, and one can always be wrong. So I don't blame other laymen for not yet sharing my enthusiasm and faith. But I'll try to convey these to others, when a chance comes along.

Marty is one in a million, and typifies the best of Yavneh.

Cordially,

*Herman*
