Dear Malka

Mrs. Lamm just had an opportunity, the night after I was with you at the graduation dinner, to look through "Kochaviah 1964".

The both of us agree that it is a splendid piece of work. I wonder if you have ever considered a career in editorial work instead of biology!

My very sincerest congratulations upon a superb piece of craftsmanship.

It was really a pleasure spending time with you and your folks and Hentchie. I hope we shall have the opportunity to participate in many "simchas" together. Fondest regards to all, in which, of course, Mrs. Lamm joins me.

Sincerely,

RABBI NORMAN LAMM
