Dear Associate Michael;

Dear Mr. [unclear],
I'm sorry for your LLB! I would not have realized
it had you not let the information slip in by stealth!
I enjoyed your letter from 22-10-25. You say it
confirms your views about the sociological aspects of
32D. I'd like you to elaborate, because I am not
aware of them. Your own experience with 32D will
much more extensive than mine, & hence your ideas
will be much more valid.
I am sending you my statement about 32D, just

will be much more valid.
I recognized your statement about $\chi_{\text{eff}}/\chi_{\text{F}}$ and
having taken χ_{eff}^2 (after all, $\chi_{\text{eff}}^2 = \rho_{\text{eff}}^2$)
but I'm aware these days, & do not know how you
mean this to return to life in Israel - unless, of
course, you mean that all of Israel is living on
interpenetrated planes.

These two interpenetration games
fundamentally, I take up the sign for
attribution to you and join in my newest book,
just published in Israel - *פִּסְמֵנָה בְּרַאשׁוֹת הַלְּבָנָן*
בְּצִדְקוֹת (by ינואר 2011). If you'll let
me know your address for about a month or
two from now, I'll be glad to send you a
complimentary copy. Have you had a chance to
glance at my Fund & Doubt?

Granathy
