Dr. Elmer Offenbacher
44 Oakland Terrace
Bala Cynwyd, Pennsylvania

Dear Elmer:

You may be able to do me and someone else a favor without much effort.

A very fine woman recently attended services at my synagogue. Her name is [REDACTED]. She is an Iraqi Jewess from India. She has a Masters Degree in Botany and Taxonomy from Calcutta University and is presently teaching at the University of Missouri.

[REDACTED] is a devout Orthodox Jewess. She has a 14 year old son with her and is very concerned about the lack of proper Jewish atmosphere in their community. She would like to find a position in or near New York, or some other large community where she would be able to obtain a position as teacher or do other scientific work.

I would very much appreciate it if you would let me know whom she could contact from amongst the members of the Association of Orthodox Jewish Scientists. It would be a great mitzvah indeed.

Best regards to your wife.

Sincerely yours,

Norman Lamm
