Mr. Zev William Wolfson
44 Whitehall Street
New York 4, New York

Dear Mr. Wolfson:

I appreciate your consideration and understanding of my position.

You know that I sympathize completely with your project and do not in the least under estimate its importance. However, there are so very many important things that clamor for our exclusive attention that each of us must decide in accordance with his tastes and talents and inclinations, what he prefers to work on and for.

I enclose a pamphlet which is a copy of a recent talk I gave.

Cordially yours,

RABBI NORMAN LAMM
