Dear Rabbi Low,

Hi! Well in just 2 weeks --- ! The ~~first~~ wedding that marriage, I am told, endures with its practical thrust of duties, obligations + responsibilities will leave me little time to reflect. So therefore now my last chance!

Recently I have been thinking about all the forces, influences, happenings that have had a formative effect upon me. Above all - I am indebted to my parents [Enclosed recent photos to put you in the picture about all the "labors"] My father - my arch critic was responsible for my musical development - at first ~~dislike~~ but now ~~dislike~~ ! His favourite criticism which kept me on my toes: You're not reading enough! My mother's passionate faith in the <sup>f13/1</sup> within. Together their understanding + enlightened tolerance in all these stormy (for a few years painful) growing up --- I would also like to thank you for what you have given; not just the letters but that you were "there" even if 2000 miles away, someone I could write to to talk to every now + again ---

I'm sorry this is beginning to sound like a eulogical speech but I hope <sup>p/s (R) 50431n p777</sup>

Regards to your family + look forward to seeing you again in not too distant future.

Nasni has been in Nyc for 1 week already + I won't see her until the wedding - very chassidish !! - but as they say absence makes --- [M. Th. LL.B. Dip Ed - How many letters left in alphabet?] <sup>How many letters?</sup> J.N. <sup>p/s 50432</sup>
