Dear Jeffrey: ☺

As I told you after your admirable presentation at the Riverdale Jewish Center during Sukkot, I was very much impressed with your sheur on the problem of tefillin on Hol Ha-moed. It was a model of lucidity and organization. You displayed a superb combination of halakhic analysis per se and the perspective of an historian.

You mentioned that you did not have your own copy of the Zohar. Please permit me to offer you a set as a gift. The three enclosed volumes are a spare set of Zohar from our library, which I acquired from them, and offer you as my gift along with very best wishes for success in everything you do.

With warm regards to your wife and family,

Cordially yours,

NORMAN LAMM  
President
