Dear Norman:

I enjoyed immensely "HEDGE OF ROSES" and have ordered twenty five copies for the Synagogue. May I suggest that in a second edition you include halachot as well? This would truly fill a great void in American Judaica.

I also read with great interest your article in Tradition. I believe that the Sabbath primarily expresses the notion that all of God's creatures have a right to exist independent of man's use of them.

Sincerely,

Steve
