Dr. Lamm's Retirement

Yeshiva University's presidential search committee faces a daunting task. Rabbi Dr. Norman Lamm is a Talmid Chacham of first rank and a respected secular scholar who has become indelibly etched in the Torah firmament as an exemplar of the concept of *Torah Umaddah*. He has built upon the work of some of the great individuals who served before him, and under his leadership Yeshiva University has continued its growth into one of the foremost citadels of Torah and academic scholarship.

Although Dr. Lamm has succeeded remarkably in increasing the Yeshiva's endowment, financial security alone will not ensure its future as the unique institution it now is. His true success has been a function of his faithful pursuit of the vision of Rav Soloveitchik, the Rav, *zt"l*. Finding someone capable of combining Dr. Lamm's brilliant scholarship, administrative skills and fealty to the Rav will not be easy.
