Dear Rabbi Lamm,

By now I had felt sure I would have had a report from you about the Center family, some meager reports about whose avelim had reached me through Fay.

I attribute your silence to excessive pre-occupation with your dissertation and hence decided to invade your vacation with these lines. Israel was as usual eretz okhelet et orheha at any rate as the weeks in Jerusalem and Tel Aviv were concerned. But it was, as usual, also most inspiring, challenging, encouraging, from the president through the Va'ad haYeshivot to the planters of trees and tenders of vineyards.

Trusting all is well with all your family.

Mrs. Jung wishes to be remembered and joins me in best wishes for nehamat zion virushalaim.

At the above until August 4th, then at Uto Ring Apt., Via San Giorgino, Lugano-Castagnola, Switzerland.

All kind regards mibayit levayit,

Sincerely yours,

Leo Jung

I hope that you'll have by now completed the obtaining of a U.S. Treasury exemption for your own DPs society. LJ
