INTEROFFICE COMMUNICATION

To: Files  
From: NORMAN LAMM  
Subject: Gays/Agudath Harabbonim  
Date: May 19, 1995

Rabbi Simcha Elberg called me today to inform me that someone had stolen a piece of stationery of the Agudath Harabbonim and on it written a letter condemning me and YU for the gays issue at CSL. Rabbi Elberg assures me that this was done not only without his permission but without his knowledge as well. (He had previously told this to Rabbi Charlop who informed me about it earlier this week.)

He then told me that he had received many calls to intercede with me; amongst them were people who wanted to put an *issur* on us... He asked if he could, together with a small committee, talk with me about it.

My response was that right now I am in the middle of working on the problem and that I would give his request consideration after Shavuot. He said he was satisfied with the answer and would tell people that he couldn't reach me this week and next week was already too late...

If I do decide to meet with him, I should insist that the committee come to me, and not allow myself to be dragged to them.
