Dear Dr. Weiss:

Things are going at a quick pace. I have addressed about 12 public meetings and have four more to go.

The Conservatives have attempted to upset things numerous times but thank G-d to no avail.

There is a great deal of inner conflict going on but much of it is slowly being solved.

Really, this is a darling Jewish community and we must help them. The people **simply** are thirsty for the word of Torah. The poverty as I told you is shocking.

I am still hoping that you were able to wire me the thousand dollars. It isn't a great deal of money but it can go a long way. We want to rent quarters and it isn't too expensive. Also I would like to buy at least 200 pair of Tefilin. Most of the B'nai Israel do not have Tefilin and they are now willing to put them on. We can buy them from Cochin for about \$2.50 a pair.

If you haven't been able to wire the money until now then please wait till I return.

Please **have** Moses Feuerstein read this letter.

Best personal regards.

Sincerely

P.S. By the time you receive this letter I will probably be in Israel.
