country like Nigeria or Zanzibar.

If the Jews can be classified as a nation today - would it make any sense to you to say they must have been a nation living amongst nations for two thousand years?

The majority of intelligent Jews today only mean to maintain Judaism as a religion and in every other way be like people of the nation they are born to.

I heartily agree with everything the A.C.J. has ever stood for and Rabbi Tanne they are growing more powerful day by day.

Please remember sir that a nation has never been a church and a church has never been a nation.

Respectfully yours
Robert Gelber

my dear Rabbi Tanne -

In regard to your condemnation of the recent [redacted] A.C.J. meeting in San Francisco here are a few simple facts in defense of the A.C.J. and Rabbi Elmer Berger, the most brilliant rabbi in the world today.

As a Jew and a religious Jew, here a few facts which you may have overlooked and which you cannot deny.

1) All races have intermarried and mixed so there cannot actually be an aryan or Jewish people anymore in the true sense of the word.

2) There is no such thing as an eternal race or an

with spiritual belief?

There is a Jewish people today. Anyone who cares to embrace Judaism - be it negro or red or white race.

Anthropologists and other scientists are generally agreed that Jews are not a race of their own but come from mediterranean stocks and several different continents. By suggesting that Jews are a sep[arate] race would mean that they would have to be something other than white.

As a Jew I too, do not believe the "Jewish people" had any more right to a place in the Holy-land than they had right to pick on a [illegible] eternal people. It takes a generation or two to break down a nationality not two-thousand years.

3) If you look up on your bible history you will find that even in ancient times in old Israel everyone was not a Jew. The Jews came out of ~~Israel~~ Judah alone and not out of Israel.

4) Recent proof has been established that the Anglo-Saxon-Celtic people are the descendants of the lost tribes of Israel. By your way of thinking this should then establish these nations as a Jewish people or race.

My dear Rabbi - In this day and age how could historical background have anything to do
